Subject: Support for Jeanette Kowalik as Health Commissioner

Hi Alderman Kovac,
As your constituent, I'm contacting you to voice my support for Jeanette Kowalik as the next Health Commissioner. Given the serious health disparities that we face in Milwaukee, we are in desperate need of strong, visionary leadership. Given Dr. Kowalik's experience at both the local and federal levels working to address immunization access, sexual health, and maternal and child health, she would be a strong force in turning the tide to reduce communicable disease, STDs, and infant mortality in Milwaukee. She has the necessary public health knowledge and training and strong community support to rebuild the trust of both health department staff and the community at large.

Sincerely,
Anneke Mohr

2529 E Webster Pl
