It will be the plaque style that was approved by the HPC, just applied to a light pole and not a building—if the HPC approves. Gail has discussed the plaque with one of the vendors, artist Tom Queoff to discuss which size is suitable. She has also worked out the text.

Did you request a copy of the proposed plaque? How would that work with non-city plaque conformity?

Hi Linda,
This is the official application form that is on line.

Gail is going through the process to clear it with Milwaukee County. The County Parks dept. worked with her on the street sign and will do so with this plaque.

Isn't there some kind of official app they fill out? How is the plaque going to be put onto public property?

BuildingName:	Donna Schlieman (a deceased person) -- 1937 date is her birth date
ConstructDate:	1937
Explanation:	This plaque would honor a person, rather than a building. Donna Schlieman was a noted activist for preserving Milwaukee's historic architecture. The planned location for the plaque is a light pole that already carries a \"Donna's Way\" street-name-style sign at the top of the pole. The historic plaque will explain who Donna was. Planned wording for the plaque is: Donna Kay Schlieman (1937-2013) was a nurse in Milwaukee hospitals who, in retirement, earned respect as a fearless and dedicated advocate for Milwaukee's parks and historic architecture. The proposed tagline for this plaque is, \"Historic People\" since she is one of Milwaukee's historically noteworthy people, rather than one of its many historic properties, which might be served by the tagline, \"Historic Properties.\" A supporting photo (of the proposed plaque as designed by TQ Sculpture, Inc.) can be mailed separately upon request.
