To All involved,

I wish to express my strong objection to the proposed development at 1701 N. Humboldt Avenue. I believe it to be a poor choice of land use. I do not believe the current proposed design to be in line with the historic nature and designation of Brady Street. One of the main reasons that Brady Street applied for Historic Designation was to stop the advance of developers who would prefer strip malls and ultra modern buildings. Another reason was to preserve the integrity of our neighborhood.

I believe it would be an abomination to put the proposed building in an intersection in the center of our neighborhood, across from 2 of the oldest and most historic examples of architecture on Brady Street... St Hedwigs and Sciortino's.

Respectfully,

Teri Regano
