Subject: Resolution 150117

Alderman Bauman,

We submitted the attached resolution (Afr 12) for the approved assessable projects last Thursday, after the Public Works meeting on May 20th. Since then we have refined the estimate for the West Wells Street project and need to increase the cost.

How can we sub the attached resolution (Afr 12- proposed sub)? Can it be done now, or does it need to be brought up on the Council floor, or can we include it on the special PW meeting?
