Dear Ms. Sarah Toomsen,

We have completed review of WHS #24-0560, Milwaukee County Park Lake Unit Service Yard HVAC Replacement. We find that the project will have no adverse effect on historic properties within the APE providing the following conditions are met:

The proposed "furnace concentric vents" be installed on the roof and finished in black.

The "fresh air intake hoods" be painted to match the finish of the facade.

If your plans change or cultural materials/human remains are found during the project, please halt all work and contact our office.

Please use this email as your official SHPO concurrence for the project. If you require a hard copy signed form, please contact me and I will provide you a signed copy as soon as possible.

Sincerely,
Alex Eginton
