Subject: Goll Mansion site development

Dear Sir, I am very concerned about the project proposed for the Goll mansion site. The current proposal will have a negative effect on the Goll mansion, the neighborhood and the bike and walking path. To move the mansion twice and build a gigantic 26 story high rise in back of it will NOT preserve the integrity of the mansion. This massive building will loom large over the mansion and it will appear out of place and lost. In addition, to build the high rise so close to the bike and walking path will impinge on nature and the solace and beauty of this much used walking and bike path. Lastly, parking is an ongoing problem on prospect. To build this 26 story structure on this site will increase the parking problems and create numerous safety issues due to the increase in traffic. Thank you for your consideration, Sandra Weinstein 1522 north prospect Ave. Milwaukee
