Subject: 1550 N Prospect proposed Development

To whom it may concern,
I strongly urge the approval of the proposed development as it will greatly benefit the neighborhood as well as the entire city . A city that I have called home for 64 years. On a business end this 55 Mil investment will create a significant new tax base for Milwaukee. This new high end residential option will bring a vibrancy to the immediate neighborhood and new patrons to existing East Side businesses.

The 1550 N Prospect proposed development is also the best chance to restore and rehabilitate the historic Goll Mansion. With the approval of the development the Goll Mansion will be stabilized restored and repurposed....it will be more visible and accessible....once and for all removing the pressure to move or demolish this historic structure. The technique for moving this Mansion is a proven approach...one that has a history of success on numerous Milwaukee landmarks.

Thank you for your consideration.
Sincerely,
Tom Joerres
