Subject: Vote NO on item 160339 Tuesday!

Dear Zoning Committee Members,

Parkland should not be rezoned, only to sell and destroy!
Central city communities around Lincoln Park are counting on you to do the right thing and VOTE NO on item 160339, the rezoning of public park land.

Before you vote, please read the below link- *Dam Dirty Lies- Myths & Distortions* - you will find revealing facts about Abele - Barrett and the MMSD and what they have done to end run the County Supervisors 3 x vote, once as a super majority, to defy and conspire against the order to repair the Estabrook Dam.

You will also find revealing facts about the lake - the dams real purpose – the real figures to repair- the yearly low operational costs and why the destruction of the Lincoln Park dam and lake will waste over $35 million in just completed remediation of the lake and river, by the Blatz Pavilion, and how it will cost county tax payers another 12 - 20 million if it is destroyed.

Did you know…

County Executive Chris Abele and Mayor Tom Barrett are about to sell your treasured public Parkland & Lake to the MMSD
for $1.00 … And then Destroy it?

Help end their blatant overreach of our County Supervisor's authority
and their 3X vote to repair the Estabrook Dam.

Save our only Milwaukee County Lincoln Park Lake from

Destruction

Learn the shocking truth about the
