Sharon and Rhonda,

The Charter School Review Committee (CSRC) has a contract with the firm of ML Tharps to do management oversight services of the charter schools authorized by the Common Council. The contract expires on August 31, 2016. Unlike the contract for Academic monitoring there is no provision to extend the contract. Unfortunately, action was not taken to begin an RFP process to seek out vendors interested in performing the work in a new contractual relationship with the city. As a result we are in a situation where ML Tharps has not completed the work for the 2015-16 school year. In retrospect the contract should never have been set up within the time frame set in this contract. So, the next contract should be set up with an expiration date of December 31st.

We are asking for an extension of this contract to allow ML Tharps to complete the work that is necessary to make the final reports to the CSRC and the Common Council. Specifically, the work that has to be completed is the following:

1. A review of all the audits from the schools. Most of the audits will be finished at the end of October and one is due the end of November.
2. The followup on the findings of the audits to deal with any questions that arise based on the reviews.
3. The preparation of the final reports to be submitted to the CSRC and the Common Council.

The work will be completed by December 31, 2016. The current contract has a maximum compensation level of $41,208.00. The extension would be for a maximum compensation level of $13,736, for a total contract of $54,944.

Please let me know if you have questions and/or need additional information.

Thanks

Howard
