---

To Members of the City Plan Commission,
As an owner/resident at 1522 N. Prospect Ave. I wish to express my primary concern regarding the proposed residential building at 1550 N.Prospect Ave. As planned with 202 units and 233 indoor parking spaces the structure looks to be too dense,too massive for the building site. In addition there is the historic Goll Mansion to consider. I feel that as proposed the building will detract from the mansion rather than blend with or enhance it. I hope the CPC will not rezone this property.
Respectfully,
Carol Raasch
