June 12, 2016

To The City Planning Commission,

I own the Eschweiler designed mansion across the street from the Goll House.

The house will lose all lake view and because of its historical designation I can not tear it down or move it to build a high-rise.

I greatly protest the new plan calling for higher density and a larger footprint than what the existing ordinance allows.

The present zoning would enhance the neighborhood, but the new request would be very detrimental to the area.

Any car exiting the building will have to go to the corner of Brady St and Farwell Ave to go south or west and this intersection is already overcrowded.

Please do not approve these new plans.

Sincerely,

Pat Van Alyea
