President Hamilton and Members of the Steering and Rules Committee:

Thank you for calling for the City's Legislative Reference Bureau (LRB) to review the MPS impact statement submitted by the Charter School Review Committee (CSRC). Please make the review an addendum to the impact statement.

However, the failure to involve appropriate Milwaukee Public Schools staff in the development of the impact statement leaves it deficient. The format and content of future impact statements is still to be resolved. No such impact statement can be adequate without involving appropriate staff from MPS and the Dept. of Public Instruction (DPI) in its development.

Sincerely,
Larry Hoffman
