Dear Mr. Owczarski,

I received your letter regarding the possible consideration of the Goll Mansion project at the April 12th HPC meeting. I strongly object to moving the Goll Mansion to accommodate the proposed new construction. Moving the Goll Mansion off its current stately perch and jamming a massive, ultra-modern building directly behind it creates a bizarre look that makes a mockery of the historic preservation rules. Thank you for consideration of this matter.

Sincerely,

Gary E. Lakritz
