I am requesting 6 months to have windows installed which meet historical standards and orders. The two west front windows (see photos) identified in the original violation will be replaced with wooden casement window which open inward and with wooden minull in the center. The lead in the window is ZINC. The original windows to repair and install are upward of $25,000 . The windows were removed because of extensive damage, broken panes and rotted frames The new windows are more energy efficiency, secure and will closely resemble the original window . The south and north original windows will be repaired and retained. I am working with Home Depot and a window restoration company in Wauwatosa to install the window. I will submit the plans to HPC for approval prior to installation of window

Thank You for your consideration

I was on the call but call was muted so it was held over until next month? Thanks
