Subject: Rivianna project

Common Council President Hines and Common Council Members,

Water Street Lofts Condominium Association, comprised of 80 units occupied by over 100+ voters, and a member of the Milwaukee River Residents Group, asks that you vote **NO** to the ZND recommendation that will allow Rivianna to move forward. The concerns of Water Street Lofts owners and our neighbours have NOT been addressed. The proposed 160', 3 tower condominium and hotel project with 3 stories of parking, built along the riverfront is inappropriate and out of character with current architecture along the river.

This project will adversely and permanently impact the character of the Fifth Ward. More time needs to be taken to consider the concerns of neighbours and the impact of this project on the Fifth Ward.

Water Street Lofts Condominium Owners ask that you vote **NO** to the ZND recommendation when the Common Council votes on July 13th.

Thank you,

Guy Poitras, President
Water Street Lofts Condominium Association
Members of the Milwaukee River Residents Group
