ALD. MURPHY

An ordinance prohibiting the use of smokeless tobacco at sports facilities and recreational areas.

105-49.5 or

This ordinance prohibits the use of smokeless tobacco at sporting event venues. A sporting event venue includes the entire physical area in which the sporting event occurs, including open, semi-open and enclosed spaces and structures, playing fields, team bench areas, vendor areas, spectator seating areas, parking lots and designated tailgating areas. This prohibition does not apply to tobacco cessation products. Any person violating this prohibition shall be subject to a \$100 to \$250 forfeiture.

No person in charge of controlling, governing or directing the activities at a sporting event venue where the use of smokeless tobacco is prohibited may allow another person to use smokeless tobacco. Any such person in charge violating this prohibition, after first receiving a warning notice, shall be subject to a \$100 forfeiture. No person in charge shall be required to forfeit more than \$100 in total for all violations occurring on a single day.

Whereas, Public health authorities, including the Surgeon General of the United States and the National Cancer Institute, have found that smokeless tobacco use is hazardous to health and can lead to nicotine addiction; and

Whereas, The National Cancer Institute states that smokeless tobacco contains at least 28 chemicals that cause cancer, and according to the Wisconsin Department of Health Services, smokeless

tobacco has 10 times the amount of some cancer-causing substances as smoking tobacco; and

Whereas, According to the Wisconsin Department of Health Services, 17.4% of male Wisconsin high-school students use smokeless tobacco, and each year, about 535,000 children between the ages of 12-17 use smokeless tobacco for the first time; and

Whereas, The U.S. Centers for Disease Control and Prevention (CDC) reports that the use of smokeless tobacco <<http://www.cdc.gov/media/releases/2015/p0903-athlete-tobacco.html>> by youth athletes increased from 2001 to 2013, and young athletes are almost 80 percent more likely <<http://health.usnews.com/health-news/articles/2015/09/03/more-high-school-athletes-using-dip-and-chew-cdc-finds>> to use smokeless tobacco products than non-athletes; and

Whereas, According to an expert from the CDC, “Athletes serve as role models for youth, and smokeless tobacco manufacturers have used advertising, images, and testimonials featuring athletes and sports to make smokeless tobacco products appear attractive to youth”; and

Whereas, The CDC expert also noted that, “Children and teens closely observe athletes’ actions, including their use of tobacco products, and are influenced by what they see. Adolescents tend to mimic the behaviors of those they look up to and identify with, including baseball players and other athletes”; and

Whereas, The use of smokeless tobacco has become part of the culture of some sports, particularly baseball, and is reinforced through the use of smokeless tobacco by players, coaches and fans at professional and amateur levels of the sport; and

Whereas, Major League Baseball has banned the use of smokeless tobacco by its minor league players since 1993, but has failed to enforce a similar ban for its major league players; and

Whereas, Smokeless tobacco spit is unsanitary and interferes with the enjoyment of other players and fans; now, therefore

The Mayor and Common Council of the City of Milwaukee do ordain as follows:

Part 1. Section 105-49.5 of the code is created to read:
