Existing front step, 7" h. Deck to continue at that level to right of main entry.

Existing landing area for ADA access to restaurant. Opening to be made to deck at landing, beyond existing hand rail. Deck to be level with landing.

Exposed end of ADA ramp, new cut through will have finished end to match. Building owner will be repainting areas as well where worn from weather.

Front existing patio area. Planters to be worked into new patio dividing wall, corner "beer cask" to be replace with new concrete square planter.

Photo of existing patio and uneven levels of concrete. Also, window height is over 18" from existing patio.
