..Title
An ordinance relating to definitions of prereserved group transport and shuttle vehicles.

..Sections
100-3-20 am
100-3-23 am

..Analysis
This ordinance clarifies the definitions of “prereserved group” and “shuttle service” to assure that a vehicle operating as a shuttle vehicle for a prereserved group must have at least 5 passengers at the point of origin or the point of destination. This clarification prohibits operation of a shuttle vehicle in a manner, similar to a taxicab, where individual or small numbers of passengers are picked up at a major point of passenger travel generation such as an airport or intermodal station and conveyed to homes or similar destinations.

The ordinance does not change the requirements of s. 100-61-3 that a person holding a permit for a shuttle vehicle operating on a fixed route and schedule shall post a current route schedule in the vehicle and submit a copy to the city clerk.
