

January 25, 2007

One June 21, 2006, I witnessed the city cutting lines on Bluemound Road. On this day myself and several of my employees and customers witnessed two city employees cutting from the median towards my business located at 9226 West Bluemound Road. The debris was thrown at our windows with such force I thought for sure the window would have shattered. Luckily no windows were broken. No one had alerted us of what was going on, and had a customer walked out the door at that time, they could have been seriously injured by flying debris.

Thank you,

A handwritten signature in cursive script that reads "JoAnne Lalko".
