

My name is Angeline Bradford (AKA unit E201) I am a retired 70 year old senior and I am on the endanger list.

I have lived at 7300 since 2014

I could take this time to tell you about the neglect of the previous owner but you already know about that as AK properties has already informed you of as to why they want to do all these wonderful things.

But I want to tell you why I love it here at unit E201. It is the people. My neighbors!! We look out for one another. You know like the neighbor that lets everyone on the block know whats going on. That when your sick or feeling down there is always that neighbor that bring you a couple of soup or a full 3 course meal.

It would take me all day to tell you about my wonderful community.

I am now at a point in my life that I can take time to have conversation with other that are in my age group and retired. Injoy friendships and socialize here where I live I don't have to go outside the facility to do this.

So Iam asking that the board give AB properties one year to do the list of things they presented to the board that they would do before allowing the rezoning to happen.

My past experiences has been that management get people to move in and that whatever issues the unit may have they will take care of it once you move in and we know what a struggle that can be.

Angelia Bradford
