Background Information

In 1997 Common Council File 971260 was passed for the 1998 Municipal Health Services Program (MHSP) Grant. This program grants waivers to City of Milwaukee Medicaid recipients for services not normally covered by Medicare. Funding comes to the Health Department from the Center for Medicare and Medicaid Services (CMS) for MHSP authorized providers to reimburse them for claims submitted to CMS. The amount reimbursed to the providers was greater than originally budgeted and required the Health Department to submit this amendment to increase the appropriation authority by an additional \$320,000. No other expenditures will be authorized.
