CITY ATTORNEY

Was enroute west of Villard  
between 46<sup>th</sup> and 47<sup>th</sup> street,  
A city truck (snow plowing truck)  
was traveling East on Villard.

CITY OF MILWAUKEE  
RECEIVED

OFFICE OF  
CITY ATTORNEY

The truck traveling at a  
Dangerous Speed for the conditions -  
was deliberately getting in the  
path of slush - so it would  
be thrusted onto traffic headed  
West on Villard. When my truck  
came up along side the city truck,  
The city truck wheels threw  
slush into my vehicle windshield -  
The impact sounded like a ton  
of bricks hit my windshield.

(2)

The Slush blinded my view for up to 3 seconds. After wiping the Slush away and get my view back - I did not notice my ~~at~~ windshield <sup>was</sup> cracked then. I proceeded on my ~~to~~ way. About ~~an~~ a hour later, I noticed my windshield had a small crack in it - down at the bottom portion where the Slush had pinned my wiper blades against the windshield. A little later the small crack spreaded up the windshield - then it spreaded across the windshield in both directions. I concluded the Big load of Slush - thrown onto my windshield by the

city truck had caused this damage. That is when I contacted the Milwaukee city worker's Department, unable to reach anyone I called Department of Public Works Information Center at 286-8282. I talked with a gentleman there - I told him what happened - the time - location etc. He instructed me to call City Attorney office Monday, on Monday (Martin Luther King Holiday) City Hall was close - I called Tuesday at 286-2601 and talked with a city clerk - explain to her what happened. She instructed

that  
me I had to file a claim.  
So she mailed the required  
information out to me. I  
believe the city driver of the  
city truck acted negligent and  
unlawful - deliberately driving  
at a dangerous speed and getting  
in the path of slush so it can  
be ~~to~~ thrown on ~~car~~ vehicles  
~~car~~ going in the opposite  
direction. Since I did not  
notice the damage the slush  
had done until an hour or so  
later - I did <sup>not</sup> try to pursue  
the city truck to get license  
plate and truck number.  
I did not observe the damage until  
later - but I'm 100% sure

⑤

This city truck driver  
cause the damage to my  
windshield - by throwing that  
slush onto it. All due  
respect to the city of  
milwaukee - I'm asking the  
city for relief of damages  
to my truck windshield  
in the amount it cost to  
replace it. The replacement  
cost estimate at \$300<sup>00</sup> dollars

Sincerely your

Derry Watson
