

**AGREEMENT FOR MAINTENANCE OR OTHER ROADSIDE LANDSCAPING  
WITHIN MILWAUKEE COUNTY TRUNK HIGHWAY (CTH) RIGHT-OF-WAY  
AGREEMENT NO. 2018S1**

The Milwaukee County Department of Transportation (MCDOT), in order to clearly define responsibilities for certain actions within County Highway right-of-way, herewith enters into an agreement with the City of Milwaukee, hereinafter designated as the “City”, to perform the following actions within the limits of the right-of-way of the County Trunk Highway now designated as CTH S, West Mill Road, from approximately N. 49th St. to N. 89th St., in the City of Milwaukee, Milwaukee County, Wisconsin:

- Install, own and maintain bioswales and associated facilities (storm sewer connections, drains, plantings, etc.) in the medians as shown on the approved and attached 2017 approved plans for City of Milwaukee Plan File No. 248-33 through 248-42, CTH S, West Mill Road, from approximately N. 49th St. to N. 89th St.

*NOTE: A separate “Permit for Work or Encroachment within County Highway R.O.W.” will be required before starting work. Submit a plan of precise description of the work with the permit application.*

The agreement shall be subject to the following provisions and conditions:

1. The work will be performed as part of the City of Milwaukee Plan File No. 248-33 through 248-42, CTH S, West Mill Road, from approximately N. 49th St. to N. 89th St. (plans attached). A MCDOT permit is required prior to work starting as noted above. Any additional work not specified and approved in the plans will require a new MCDOT permit issued prior to work being completed.
2. The City will have ownership of the bioswales and associated facilities, receiving a full credit of about 70% for the Total Suspended Solids (TSS) reduction.
3. The City will maintain in good condition the bioswales and associated facilities to ensure that the facilities are and remain in proper working condition (i.e. operating as intended by the original design to infiltrate and treat stormwater runoff). This shall include, but not be limited to, the bioswale structures, drains, and connections to the MCDOT’s storm sewer; weeding; replacement of dead/damaged plantings; and removal of litter and debris and maintenance in accordance to the City’s bio-retention facility maintenance contract at no cost to the MCDOT. Plantings that interfere with the visibility and sight distance shall be removed by the City.
4. MCDOT will grant the City a permanent easement to enter the area of the bioswales and associated facilities for the purpose of performing the maintenance described above. The proper temporary traffic control shall be in place according to the Manual on Uniform Traffic Control Devices (MUCTD) when performing said maintenance.
5. MCDOT accepts no responsibility for loss or damage that may occur to the bioswales and plantings and the City shall be fully aware that the plantings are subject to mortality, thinning, normal hazard due to maintenance operations, snow control, calcium chloride damage, and public utility installation or alteration; trimming or removal if and when they cause restrictions to sight distance or hazardous snow or ice conditions on the roadway.
6. Should reconstruction or other improvement of the road be undertaken; and possible partial or complete abandonment or obliteration or return to private ownership if the future changes in road location should be made, the City shall remove or relocate their facilities at their expense.

7. If at any time after the City has assumed landscaping maintenance responsibility it shall come to the attention of MCDOT that the bioswales and associated facilities are not properly maintained pursuant to the terms of this agreement, the MCDOT or designee may issue a written notice to the City that a deficiency or deficiencies exist(s). Upon receipt of the notice, the City shall have a period of thirty (30) calendar days within which to correct the cited deficiencies. If said deficiencies are not corrected within this time period, MCDOT may terminate the agreement, in which case the City shall at its own expense and within sixty (60) days after written notice by MCDOT, remove all of the landscaping that the MCDOT directs be removed and return the right-of-way to its original condition, and relinquish any TSS removal credits from this project obtained per this agreement.
8. The City shall keep in force during the period of this agreement public liability insurance, property damage insurance and worker's compensation insurance through an insurance policy(ies).
9. The City agrees to indemnify and hold MCDOT harmless from any claim or cause of action arising in any way from the installation, maintenance (or deficiency thereof) or malfunction of the bioswales, trees and associated facilities, which the City will own and maintain under the terms of this agreement. The City also agrees to the following:

“The City agrees to indemnify and save harmless the MCDOT from and against all liabilities, claims, demands, judgements, losses, and all suits at law or in equity, costs and expenses, including reasonable attorney fees, for injury or death of any person or loss or damage to the property of any person, firm, organization or corporation, including both parties hereto and their employees, arising from the City's work under this agreement.”

This agreement is subject to the terms and conditions that follow and is executed by the undersigned under proper authority to execute such an agreement for the designated Municipality and upon acceptance by the MCDOT shall constitute an agreement between the City and the MCDOT.
