Jen Heinz	jenheinz@gmail.com	unknown	She gets plowed in EVERY year. Last year and this year have been the WORST EVER. She thinks some MAJOR retraining needs to happen to learn how to deal with this. She is ready to start deducting from her water bill to get someone's attention on how UNACCEPTABLE this is.

Lisa and Karl Kamutzki	414-588-4699 lkamutzki@yahoo.com	unknown	The current road conditions on Nash and the surrounding area (adjacent to MGIS) is simply unacceptable. As a taxpayer, I am quite perplexed how some neighborhood streets are completely "free and clear" of any and all snow/ice, while less than

			1/2 mile away, we are driving on snow-covered streets with shelf ice.

Jessica Pawelski	jmpawel@yahoo.com	unknown	The poorly plowed streets near her school and the dangerous walking

			<p>conditions for children, this has caused. I saw multiple cars slipping and sliding around street, all while children are trying to cross the road to get to school. This area needs to be taken care of before a child gets hurt.</p>
Edward Svach	czican01@yahoo.com	3267 N. 82nd Street, Milwaukee, WI	<p>Was disappointed with the plowing in my area last weekend and they didn't return to plow it at all. I ask you drive down our streets and look for yourself sometime soon...speaking of 83rd & Concordia especially. The family living on the corner house used his small 4 wheeler tractor and plows that street in front of his home.</p>
MaryAnne Scherer	3767 N 77th St. Milwaukee, WI		<p>Resident of the Nash Park area</p>

			(77th and Nash) and have noticed that the snow removal in our neighborhood following the recent storm was inadequate which is surprising. There are many streets which still have several inches of snow causing ruts and bumps, etc. for all of us to continue to navigate over.
Guy Davis, Jr.		4455 North 88th St. Milwaukee, WI 53225	Plow trucks come by to late. You don't see them all day but as soon as you dig yourself out here they come then it's hard in the morning to dig out again. I would like for you to take this to the Committee, that it should be a certain time they put that Blade down on your street.

Renee Lee	patientways@yahoo.com	2855 N 88 th St. Milwaukee, WI	The middle of the streets never got done, they did do the sides but I'm so confused why there are inches deep of snow and now new snow. I have got stuck on almost all streets near me. 89th street is really bad too. Including the intersection on

			88/89 Locust.

			car would have gotten stuck if I had to drive through.

Leonard Radke (1-27-20)	414-536-9534	3408 N. 97 th St. Milwaukee, WI 53222	Resident stated that last week DPW removed the snow nicely in his area, however Salt plow trucks today have salted and re-plowed and re-covered the wheelchair ramps again with snow/ice and did an overall terrible job, also wants to know why do residents have 24hrs. to clear snow off their property when the city can come back a week later to plow and salt?
