

February 9, 2007

To the Honorable, the Common Council

Dear Council Members:

Midwest Products and Engineering, Incorporated will construct a detention pond and one 8-inch diameter pipe over City of Milwaukee Sewer Easement SE-2080, granted on April 9, 1974. Said sewer easement is located in Midwest Products and Engineering, Inc. property, located at 10597 West Glenbrook Court. The alterations will be constructed in conformance with City specifications and the approved Storm Water Management Plan (SWMP) for Midwest Products and Engineering, Inc. building addition.

The attached resolution authorizes and directs the proper City officers to execute a Sewer Agreement SA-2080-A with Midwest Products. This agreement allows for the construction of the alterations in the easement area and defines Midwest Products responsibility over the maintenance of the proposed alterations.

We recommend adoption of the attached resolution.

Very truly yours,

Jeffrey S. Polenske, P.E.  
City Engineer

Jeffrey J. Mantes, P.E.  
Commissioner of Public Works
