

February 4, 2009

To the Honorable, the Common Council

Subject: North-South Mitchell Interchange (IH-94)
Municipal Utility Agreements

Dear Council Members:

The Wisconsin Department of Transportation (WISDOT) is proposing to reconstruct the North-South Mitchell Interchange (NSMI) within the City of Milwaukee for the period from spring 2009 through 2012. The project is to be accomplished in four major phases, being the (South 27th Street; West Grange Avenue; West College Avenue) scheduled for 2009, (North Leg; West Layton Avenue) scheduled for 2010, and Mitchell Interchange scheduled for 2011 and 2012. The Department of Public Works has assisted the WISDOT in the design and construction phasing of the contracts to best meet the needs of the citizens of the City of Milwaukee and the region as a whole and has worked diligently to minimize costs.

Common council resolution file number 080400 adopted August 14, 2008 approved and authorized the execution of four utility agreements with WISDOT for work on City of Milwaukee facilities in conjunction with the NSMI (South 27th Street; West Grange Avenue; West College Avenue) contracts. The utility agreements provided funding participation of 90 percent federal/state with 10 percent City of Milwaukee share.

The WISDOT is requesting an amendment to the original utility agreements previously executed by the City of Milwaukee to include the 2009 Advanced Utilities Contract (West Mallory Avenue and W. Layton Avenue). The amendments include necessary alterations to city water and sewer facilities. State statute § 84.294(4m) requires that the City of Milwaukee accommodate these types of freeway projects and that WISDOT pay 90 percent of the cost for alterations to municipal facilities with remaining 10 percent being the responsibility of the affected municipal jurisdiction.

In order to be reimbursed for the 90 percent WISDOT share of the work, it is necessary for the City of Milwaukee to enter into amended utilities agreements which define the work and the process for cost sharing on the project. The WISDOT has provided the City of Milwaukee with the necessary agreements and estimates for the 2009 Advanced Utilities Contract.

The Common Council
February 4, 2009
Page 2

City of Milwaukee work associated with Water Works and Environmental Engineering work have been estimated to be \$2,415,000.00 and \$354,671.33, respectively, of which the City of Milwaukee's share for Water Works is \$241,500.00 and the City of Milwaukee's share for Environmental Engineering is \$35,467.13.

The Department of Public Works has reviewed the estimates and find them to accurately reflect the required utility alterations in conjunction with the 2009 portion of the contracts. As such we have prepared the attached resolution which if adopted will approve the utility agreements associated with Amendments Nos. 67 and 70 for the 2009 Advanced Utilities construction work of the NSMI and will allow for the City of Milwaukee's participation in the alteration of Water and Environmental Engineering facilities as necessary and will provide for 90 percent cost share by the WISDOT. Said resolution will also authorize the Commissioner of Public Works to execute the various agreements as well as take actions as necessary to accomplish the work and will authorize the City Engineer and the Comptroller to make periodic payments and billings in accord with established procedures to properly account for the costs associated with said work. We respectfully recommend adoption of the resolution.

Very truly yours,

Jeffrey S. Polenske, P.E.
City Engineer

Jeffrey J. Mantes
Commissioner of Public Works
