

The Public Service Commission of Wisconsin will be asked to review this project which involves the addition of a second circuit along an existing north-south transmission line, and new transmission lines to connect to a new substation to serve the Foxconn campus. Work at other substations and some pole replacements also are planned.

Proposed transmission lines will connect to new substation

Foxconn Power Station

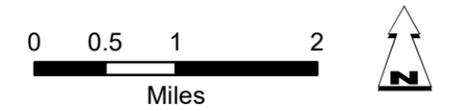

Proposed ATC substation location

A second circuit on existing structures is planned.

Mount Pleasant Tech Interconnection Project (MPTIP)

- Existing Transmission Line**
- Existing Transmission Line
- Proposed Route Options and Substation**
- East-West Preferred Route
- East-West Alternative Route
- Proposed Second Conductor
- Proposed ATC Substation Location
- Foxconn Development Area
