RONALD D. DEONHAROT  
CITY CLERK

To whom it May concern:

I Joyce Alder fell into a pot hole which caused me to injure myself. It caused me to further injure myself even more.

The stitches were then torn open and staples pushed further into the flesh of my skin causing more damage to my leg. The doctors then had to cut more bone and skin to be removed from my leg. I was then told by the doctors that falling on that curb caused damage in which I had to stay in the hospital for days causing me more pain and suffering. I haven't gotten over the fact that I'm still going thru more pain on a daily basis. Being woun specialist & nurses coming every day to clean & dress the wound of my leg. This was told to the city several times that these pot holes needed to be repaired over and over again. Now this just caused more injuries to a person such as myself. So I feel that the state is very incompetent in the work that's suppose to be done by our city workers. look on

To whom it concern:

I Jayce Olden had a bad incident back here in August of 2010. I fell into a pot hole while being pushed in my wheel chair causing injury to my leg. The staples were pushed so far in my leg causing more injury and more pain to my leg. The paramedics were called and I had to be rushed to the hospital. My stay there was long and much more painful than out my stay in the hospital. More pain was caused by this injury along with suffering there out this journey. Now the nurse has to come everyday to clean and ~~the~~ wrap my leg everyday thru out this healing process. And up on this I fill that I should be awarded \$10,000 dollars for my pain and suffering thru out this journey.

Sincerely  
Jayce Olden

P.S. This has been one long journey with nurses in and out of my home not being able to have at least a bit of privacy.
