

May 8, 2001

CITY OF MILWAUKEE

On Tuesday, May 8, 2001, I received a letter from the office of City Attorney denying my claim of \$501.12 on file number 01-S-114, for the cost of service by Roto Rooter to clean my sewer lateral cleaning.

2001 MAY 10 PM 3:32

RONALD D. LEONHARDT
CITY CLERK

The service person who came to my home stated that upon his inspection, my lateral was clean and that they found that a clog existed in the city main.

My lateral is about 50 feet to the center of the street and then connects to the cities main sewer. They found that by using special equipment, they were able to clear the clog in the city main only after going out to the street 120 feet from the clean out in my basement and informed me that the problem was not in my lateral but in the city system.

A letter explaining this condition was written by Mr. Mike Shepherd of the Roto Rooter Sewer Drain Service, who was at the my home and had to use a high pressure water jetter to clear the clog. His statement was that the stoppage was approximately 3 feet from the manhole in the intersection of S. Logan and E Wilbur Avenues.

Mr. Langley's letter further states that an inspection of the sewer at this intersection was made on the date in question by the Infrastructure Services Division and they found the sewer main was operating properly. The letter also states that this service had contacted me to have my lateral cleaned.

Having been home on the date in question, I can state that no one from any agency for the City of Milwaukee contacted me regarding my lateral system. Furthermore, having had been working on the outside of my home, I at no time observed any City workers checking the sewers at the intersection of S. Logan and E. Wilbur Avenues.

Based on the above information, I hereby request a hearing date of appeal be set up to further investigate this dispute. I would further request that the documentation for the inspection of this sewer in question and the name of the person who contacted me to have my sewer lateral cleaned be presented at the time of the hearing.

Respectfully Submitted

To Whom it may concern,

5

On March 12, 2001, early in the morning I noticed sewer water coming from my floor drain in the basement of my home.

I contacted Roto-Rooter thinking my drain to the city drain was clogged.

The service man arrived and started work at 2:05 PM. He found that my 45 foot drain to the city main sanitary sewer was clear. This service man called in another unit for a high pressure jetter.

The service men required 125 feet of the jetter to clear the clog and found that a 6 inch city main was clogged and was forcing water into my home.

There was no problem with my home drain.

I reside at 3646 So. Logan Ave, 414-744-6924, and I am the home owner since 1968.

To Whom It May Concern:

On 3/12/01, Roto-Rooter was called to 3646 S. Logan for sewage coming up in basement. The service man on sight first ran an electric sewer-cleaning machine for 2 hours assumed it was very sludged up, so he then called for our high-pressure water jetter. The jetter crew ran the main sanitary sewer from the clean out in basement out 120' and determined that stoppage was approximately 3' from the manhole in the intersection of Logan Ave and Wilbur Ave. The city main was high. Any questions please call 414-541-4477

Respectfully,
