Subject: Question re: differential pay

The City did not put military differential pay on the table. MPA and Local 215 had several proposals on the table relative to military leave, pay, and benefits. The City did not agree to the proposals in the context of other monetary items the unions were seeking and the total package cost.

Hi, Dave:

I seem to recall that the City had put military differential pay on the table with the police and fire unions during your most recent labor contract negotiations, but that both unions brushed it off. Am I correct? I mentioned this to Ald. Murphy, and he requested that I verify this with you. Thank you for your assistance.
