Hi Chris,

This was sent to a general DCD Planning email account and is in reference to File No. 230881 (6090-98 N. 35th Street zoning change). Can this please be added to the file?

Thank you!

Subject: Website inquiry

I live across the street from what used to be North Trinity Lutheran school. I have objected to the plans by Mason temple. I objected to building the church, to no avail. The daycare center across the street do not utilize the parking lot. I am cleaning up trash on a daily basis. The trash consist of everything from food bags to dirty diapers to bottles or cans of beer. I am 70 years old and cannot tolerate the new development project. I objected to the church and I cannot park in front of my house. I fell last year because someone parked blocking my walkway and suffered serious injuries. What is going to happen when the church erects their housing development. I am voting no to the revitalization plan on 35th St north of Florist.

Thank you very much
Donal
