Re: Appealing Decision Of Vehicle Towed by The City Tow Lot.

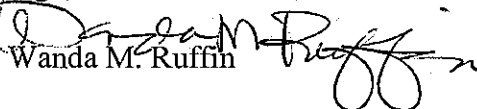

To: City Clerk,

In reference to case No. 07-S-357, I Wanda M. Ruffin disagree with the decision made by the City Attorney Office, however, the main issue lies with the parking checker when she fail to notify management or public safety before having my vehicle removed from the housing complex where I live and where my vehicle was registered, she did not use the proper protocol (See **Public Safety Notice**) before having my vehicle removed overlooking the parking sticker that was clearly posted inside the left side of vehicle rear window and registered with management Office, therefore a rush to judgment was the causes (See **Management doc.**) Secondly, we tried to retrieve my vehicle a few days later, @ and around **May 21, 2007** with certified documentation stating that my vehicle was to be release to my son, Tow Lot denied the release. However, after several attempted, to retrieve the car, explaining to City Attorney why my vehicle should have not been removed, the misconception during the court proceeding of the citation ticket was confusing because the City Lot wanted all fees and info concerning my vehicle. At and round **June 25, 2007**, during the time I received a letter for the pre-trial hearing I **was told by one the clerk that my vehicle had already been recycled** this was the term that the clerk used, **however**, I was not aware fully what this meant, I continue to call for specific information, I was hurt to learned that my vehicle my deceased Husband had left to me.

however court had rescheduled **July 30, 2007 hearing (Trial) by now I had already been told by Tow Lot clerk that my vehicle had already been recycled**, this was explained to the Judge and City prosecutor at my final hearing September 28, 2007 which I had prior knowledge 3 months before, from the City Tow Lot notice dated September 7, 2007, notice with a different date states my vehicle was disposed on **August 2, 2007**.

in my original complaint. Therefore I am appealing my decision for the City Parking Checker failure to use proper protocol before the towing of vehicle and for the City Tow Lot failed to send proper notification before recycled of vehicle, Therefore I believe I am within my rights and law the City should reimbursement me for my losses as I stated in my original complaint that was very sentimental.

Re: Complaint in Regard to Vehicle towed by The City Tow Lot.

Dear City Clerk,

I Wanda M. Ruffin in the matter of contesting my parking violation my vehicle was recycle by the City Tow lot, base on the information that city attorney Office had given I was not given the proper information as to how this procedure work, after following the instruction given I tried to have my son retrieve my vehicle on May 26, 2007 we was told I could not receive it until the citation was paid, however, during the court process and before my second court date July of 30, 2007 I contacted the City Tow Lot in June of 2007 and was told my vehicle had already been recycle before I received notice, this was unclear, before I was told that my fees would be put on hold during this process however I received notice 3 months later by mail on September 9, 2007 that my vehicle was recycle and I am responsible for the fees, this was unfair I was not told or given a notice that my vehicle would be destroyed.

I am devastated by this because my vehicle had personal items inside I express this to the receptionist and the examiner that my vehicle had sentimental value of my late husband, who had provided me transportation before his death. However my vehicle was drivable and in good condition but I had not drive it in the pass 4 years due to my illness and being on medications, periodically I had allowed my son to move it with my permission because the manager suggested to keep from vandalism and the vehicle just setting I should move it periodically. My son visit me on occasion and would remind me that if the vehicle should be move.

However, May 18, 2007 my vehicle was move and it ran out of gas, at the time I did not know that it was move, while the Tow Lot argue that my vehicle was park on the street I disagree, because it was suppose to have been park in my drive May 19, 2007 the next day Saturday I contacted the police to find that it was tow by City Tow Lot I was @ the City Attorney Office by May 21, 2007. Finally, my son told me that he had move my vehicle without my knowledge to move it from sitting he did not want to alarm me and though he go back the following day and put gas in it, but the vehicle was gone in less than 24 hours. I went back to the City attorney to make the examiner aware that my vehicle was move without my knowledge.

As I try to explain to the examiner, that the DPW should have notice that my vehicle had a special sticker for the City of Milwaukee Housing residents that identified my vehicle registered under the property of Housing and there should have been a proper protocol used before the actual towing of the vehicle.

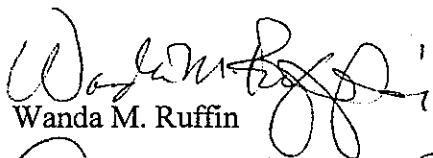

At this point, the examiner stated because I did not have license plate and my vehicle wasn't registered, that I would have to pay the citation fees, or go to court on the matter, it wasn't clear that I had to have the citation paid before I could retrieve my vehicle, so

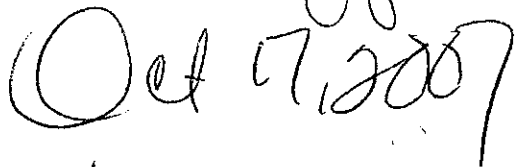

I went to court concerning the citation did what I was instructed to do, I sent my son with the court paper and the necessary item to retrieve my vehicle and he was still denied I contacted City Tow Lot on several occasion and still they would not release my vehicle.

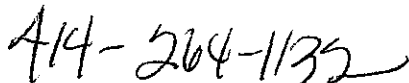

However, the damage can not replace the memory of my Husband, it was all I had that was the closet to me, the estimate for the Brick La Sabre , new used ranges up to \$15,000.00, it was paid in full in 2000. He had a motor replace by the company before his death, since then I have had a

rebuild transmission in 2002 estimated the amount of \$1,600.00, brake replace (life time warranty) on certain parts, tune-ups, replace carburetor, fuel pumps, tires, etc, however the left back side was partly damage (quarter pounder), and the paint began to ware, other than that, it was in good condition, it was all I had left that reminded me of him.

I would like the City Clerk to take under serious consideration, that because I have been a resident of 17 years and that the proper protocol have been for any violations other than the police department, is that the security and manager that is brought to the attention of the problems residents are face with, Other wise what is the purpose of our vehicle being registered with the manager's office. If there is a proper protocol for housing it should be clear and precise, and that if the DPW can have your vehicle tow it should be identified and states clearly in the resident handbook the DPW identifying with the rules of housing therefore a proper protocol should have been used before the actual towing of the vehicle. (See City Housing Parking Violation) Notice.
