Sister City Activities 2019 Irpın, Ukraine

In June, St Michael's parish members Joe Spolowicz, and Irene Lesak spent 2 weeks in Ukraine. They stayed with a host member and his family in Irpin, that had previously stayed with Joe in Milwaukee. Host family, gave us a tour of the Irpin, where we visited city sites, businesses, churches, restaurants.

We also had an official meeting at Irpin City Hall where we were warmly greeted by Acting Mayor Anastacia Popsuy and her staff. Joe presented the Mayor gifts on behalf of the city of Milwaukee, and received gifts to present to Milwaukee. We held a brief meeting with the Mayor and her staff, posed for pictures, did a press conference then proceeded on a city tour. (See attached Photos)

Our host Family was most gracious in taking us on a tour of the cities of Kiev and Lviv.

In October, Boris Nayflish, visited Irpin, where he attended a working meeting to discuss the special equipment needs of Irpin and how he and Milwaukee might help.

PARISH COUNCIL STATUTES
MILWAUKEE, WI 53204

ARTICLE I

MISSION;

BRING 'THE GOOD NEWS' TO THE WHOLE PARISH

GOAL:

Help the pastor coordinate parish activities. Use the faithfulness, common sense, and hard work of the entire Council to bring prosperity to the parish, pride and spiritual growth to all parishioners.

ARTICLE II

DEFINITION;

The parish council is a group of committed volunteers, who serve the parish as an advisory board to the pastor.

ARTICLE III

MODUS OPERANDI;

1. In order to achieve maximum benefit for the parish, all parish council members take an oath of fidelity to the teachings of the Church;
2. And promise not to dissipate privileged information.
3. The role of the parish council is to work with the pastor and under the pastor's advice in all its activities.
4. The parish council can be most productive when all members try to find consensus, instead of accepting or voting down an agenda item by a minimum difference.
5. The parish achieves maximum return in all its activities when all members work together for the common good of the parish.
6. All council members are equally represented in the council. Everyone has an active and passive voice. Therefore, whenever an agenda is discussed, must be presented in such a way that no council member should ever feel that her/his idea was ignored.
7. Issues to be discussed at the parish council must be included in the agenda.
8. All members may suggest topics or issues to be discussed, but these items must be part of the agenda.
9. The agenda is prepared by one of the secretaries and copies will be available to all members at the beginning of meetings.
10. All agenda items must have the approval of the pastor.

ARTICLE IV
TERM OF OFFICE:

1. Each member of the council takes an oath to serve in the council for a term of ONE YEAR.
2. Upon completion of a term, the council member may be excused and let go of the parish council or, that same member may take an oath yet for another term, and for as many as he/she may want, for as long as these people fulfill their duties.

ARTICLE V
OFFICERS:

1. President of the parish council is always the pastor. In the absence of the pastor no parish council meeting can take place and therefore no valid decision can be reached without the presence of the pastor.
2. First Councilor will be chosen from within all council members by a secret ballot. The first councilor speaks on behalf of the council and he/she represents the council at church gatherings, and abroad.
3. Second Councilor will be chosen from within the council members also to represent the church council in the absence of the first council, or in an agreement with the first council. In many cases, there are multiple functions, or multiple speeches that both council representatives may have to interject at the same time.
4. Secretary to take minutes of the meetings and also to notify all council members of anything that needs notification. It is recommended that there may be TWO secretaries, not necessarily First and Second. The need for two secretaries evolves from simple fact that the load may be too big for one person only, at certain times. One secretary may substitute the other in case of absence.

ARTICLE VI
MEETINGS:

1. The council should convene at about once a month, or as needed, depending upon the situation. Members will be notified in advance about the meetings.

5. In case of a larger agenda the meeting may be extended by 15 minutes, if all members in session are in agreement. Otherwise, the meeting must terminate.
6. In case of not being able to arrive at an agreeable solution, after an extension of the meeting, the matter has to be tabled and introduced at the next meeting as an "old business" item.

7. Having missed more than 40% of the meetings for a period of one year will result in dismissal from the council, by the pastor.
8. The ideal number of council member, is determined by the pastor, but the ratio should be a 10% of all registered families;

6. It is a great responsibility of the parish council members to safeguard the integrity of the pastor. The pastor is the highest authority within the parish for he alone carries the teaching office of the Church within his parish, if his authority is challenged, or disrespected then his administrative duties will be questioned and ignored.
7. Oversee that the parish complies with all demands and policies of child protection programs, according to norms given by the United Conference of Catholic Bishops and the Eparchial Office.

10. Help the pastor provide a welcoming and friendly environment to all peoples who enter the doors of our church.

These statutes are accepted and promulgated for temporary use, or until a more detailed and more complete version comes about.

It covers an area of **110.83 km²**. The climate is continental, soft with sufficient moisture. The average temperature in January is - 6 °, the average July temperature is + 19,5 °. The growing season lasts for 198-204 days. The average rainfall for the year is 500-600 mm of rain, mainly in summer and fall.

- **Historical background**

There are several legends associated with the origin of the name Irpin. In particular, after the baptism of Rus Prince's daughter Yaryna fled and prayed to Dazhbog near the oldest and largest oak around. But the vigilantes chopped off the oak, only a stump remained. Supposedly, the city Irpin appeared on this place. This "legend" is clearly a late excogitation as repelled by Russian-language name of the town and the river - "Irpen", while the river Irpin, which comes from the name of the city, was known before the times of the Russian language appeared in the region. In addition, there are no sources, indicating that before the baptism of Rus some of the Princes had the daughter Yaryna. Other hypotheses tied to the river that flows near Irpin and is derived from the Slavic word Rupa - pit. River - is oblong pit filled with water. Irpin ethnographer O. Perederiy recorded from the stories of old residents that the river Irpin was called Yerepen because it wriggles (from Ukrainian language- "yerepenylasya") during floods. In Zhytomyr region at the top of river Irpin the village Yaropovychi is located. Perhaps the name comes from the fact that the river is overflowing, and raging (from Ukrainian language- "yarylas").

Additional Historical facts:

- lebedivska culture settlements (Bronze age), which dates back to XI-IX centuries BC., pidhirtsevska culture settlements - VI-III centuries BC., and settlements of ancient Rus` culture were found near Irpin.
- In Ruthenian period there was a border between East Slavic tribal unions - Polans (ancestors of the Polish, Western Slavs) and lived on the territory of Irpin.

- During the Mongol invasion, these places were devastated. The new settling of these lands began only in the XVI century.

- In the second half of the 19th century on the site of present Irpin, a German colony Severynivka was built.
- As the result of the construction of the railway Kyiv - Kovel near the railway bridge through Irpin in 1898, there was formed a settlement - Irpin station. In 1902 in the newspaper "Kyivlyanyn" was a refer about the departure Irpin, which marked the beginning of the modern city. Villages Irpin and Bucha got their names after the eponymous rivers - Irpin and Bucha, near which they are located.
- Irpin village was built without a clear architectural plan. The swaths of the forest were cut and consequently, arose streets, which were called lines. A favorable climate, green forests and clean air created all conditions for organizing extensive health resort areas.
- Irpin had several forest depots, 2-3 small shops, two markets. To solve the cultural and social problems of the village, the land improvement company was organized. In 1909 a Holy Trinity Church was founded and in 1911 the first mass was held in it. It is the oldest church of Irpin.
- In February 1918, when the Ukrainian Central Rada returned to Kyiv, there were struggles in Irpin between Ukrainian Sech Riflemen and Bolshevik troops.

Natural Gas and Telephone lines were fully implemented in the city.

urban towns as Bucha (until the 1st of January 2007), Vorzel, Gostomel, Kotsyubynske were administratively subordinated to Irpin.

Information about us

The Parish in honor of St. Nicholas the Wonderworker has been founded in Irpin in 1999 with the blessing of the His Eminence Metropolitan Volodymyr, the head of the Ukrainian Orthodox Church and by initiative of the leadership of the Ukrainian Financial and Economic Institute (now the University of the Fiscal Service of Ukraine). In the same year, the construction of the church started on the territory of the educational institution, which was finally completed in 2017. From the very beginning, the priests of the church-rector, Father Andriy Klyushev and his deputy, Father Vasyl Mandzyuk, took the spiritual care of both the students and teachers of the Institute and the local residents of Irpin. At the same time, priests of the Church are also teachers and staff of the school and take part in various events, such as the day of knowledge, issues, oaths, educational hours. At our church, a wonderful choir was gradually created under the direction of Anna Kifenko, who constantly participates in urban cultural events, as well as in all-Ukrainian and international choral festivals. Also there is a Sunday school and a scout patrol for teens. Parishioners are engaged in social work both in the parish and in the children's oncology center of Kyiv.

The idea of the mayor of our city, Volodymyr Karpluk, and his team for establishing partnerships between Irpin and Milwaukee at various levels, including religious ones, finds our full support. Our parish is happy to engage in a friendly relationship with the Holy Trinity Orthodox Parish in Milwaukee.

His reverence, archpriest Vasiliy Kuzmych,
rector of the Holy Trinity parish
of the Russian Orthodox Church

Dear father Vasiliy !

In the near future, cities in which our religious communities are located will conclude a cooperation agreement in various fields. One of the most important spheres is, of course, spiritual. Therefore, I appeal to your Reverend with a proposal for cooperation. At a minimum, this is mutual prayer, as a maximum, it is visits with the purpose of acquaintance and visiting holy places.

Our parish in honor of St. Nicholas the Wonderworker has been founded in Irpin in 1999 with the blessing of the His Eminence Metropolitan Volodymyr, the head of the Ukrainian Orthodox Church and by initiative of the leadership of the Ukrainian Financial and Economic Institute (now the University of the Fiscal Service of Ukraine). In the same year, the construction of the church started on the territory of the educational institution, which was finally completed in 2017. From the very beginning, the priests of the church-rector, Father Andriy Klyushev and his deputy, Father Vasyl Mandzyuk, took the spiritual care of both the students and teachers of the Institute and the local residents of Irpin. At the same time, priests of the Church are also teachers and staff of the school and take part in various events, such as the day of knowledge, issues, oaths, educational hours. At our church, a wonderful choir was gradually created under the direction of Anna Kifenko, who constantly participates in urban cultural events, as well as in all-Ukrainian and international choral festivals. Also there is a Sunday school and a scout patrol for teens. Parishioners are engaged in social work both in the parish and in the children's oncology center of Kyiv.

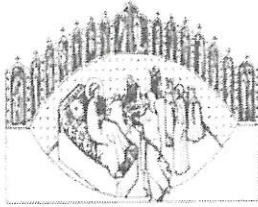

The idea of the mayor of our city, Volodymyr Karpluk, and his team for establishing partnerships between Irpin and Milwaukee at various levels, including religious ones, finds our full support. Our parish is happy to engage in a friendly relationship with the Holy Trinity Orthodox Parish in Milwaukee.

11.10.2017

Best regards, Fr. Andriy Klyushev

THE PARISH HISTORY OF THE BLESSED VIRGIN MARY'S CHRISTMAS

The history of the Blessed Virgin Mary parish formation in Irpin is complicated and thorny, as well as the history of the Ukrainian Greek Catholic Church.

Today's prime of the community was due to the hard work of many generations of parishioners, but first of all we are obliged to the generation of our parents who devoted all their strength and all their lives to the establishment of the Ukrainian Greek Catholic Church.

The founders of the parish in Irpin are the family of Boris Mamchur. The priest of this family was Stepan Yavorsky who settled down in Vinnytsa, but every Saturday evening he arrived in Irpin so that on Sunday morning at about 4-5 o'clock he could serve the Holy Liturgy and confess the pilgrims in Mamchur's flat without attracting any attention. Soon, other priests visited this house and served the Holy Liturgy every week.

In the early 90's the Greek Catholic families from Irpin visited the Greek-Catholic temples in Kiev. In 1999 an initiative group of parishioners made a decision to legalise the parish. In August that year the religious community of the Blessed Virgin Mary Nativity was officially registered and Father Anatoly Teslyu became its first administrator. It was impossible to serve the Holy Liturgy in the apartment because there was not enough space for everyone. There was a big problem with the place which was rented for a long time for worship and catechesis.

In August 2000 the priest Mykola Berdnykhe became the administrator of parish. And on May 16, 2006 the church community greeted Bishop Bohdan (Dzuzakh), a bishop-assistant of the Kiev Archeparchy for the first time.

At the Christmas in 2006 the parish council first organized the transfer of Bethlehem Fire to the inhabitants and authorities in Irpin. On the central square of the town there were a lot of people, the town hall representatives and priests of the Ukrainian Orthodox Church of Kyiv Patriarchate.

On September 16, 2007 Beatitude Archbishop Lubomyr (Husar) appointed Myroslav Latynsek as the administrator.

February 23, 2009 The Irpin Government decided to donate a parish some land for building a temple.

In 2009 after the feast of the Holy Ghost Descent the works of establishment the Temporary Chapel of St. Anne and the construction fence began.

On November 21, 2009 the first Holy Liturgy headed by the parish priest Myroslav Latynsek, was served. The same day there was the first sacrament of baptism performed by Vitali Voic.

On November 22, 2009 on Sunday the Holy Liturgy was headed by Bishop Yosif (Milian) - Assistant Bishop of the Kiev Archdiocese who consecrated St. Anne's Chapel and awarded active parishioners with donations of Blessed Ljubomyr (Husar). The event dedicated to the chapel was highlighted on the first page of the local newspaper "Irpinskiy Visnyk".

Since November 23, 2009 every day in the morning and in the evening the prayer to the Throne of God for all people of good will is raised in St. Anne's chapel.

In the summer 2011 construction works of the temple building began.

October 16, 2011 Bishop Joseph (Milian) sanctified the foundation of a new temple.

September 21, 2014 Bishop Joseph (Milian) consecrated the dome cross.

July 5, 2015 with the participation of the former vice-rector of the Lviv Holy Spirit Seminary Roman Mirchuk from the United States (New Jersey), it was the blessing of the pediment cross.

On December 6, 2015 it was the solemn consecration of the newly built temple which was performed by His Beatitude Sviatoslav (Shevchuk).

Parish life is interesting and rich for events. Every week there are catechesis of preschool and school children. A number of secular communities such as: "Knights of Columbus", "Mother in Prayer", youth community "Magnificate" operate here.

During 2015 the Knights of Columbia community was organizing grocery sets and clothing for families resettled from Donbas.

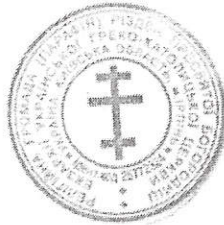

In the autumn 2016, with the assistance of active parishioners, it was organized a trip for ATO soldiers' families to the "Radomysl Castle" cultural center.

Since 2015 the parish of the Nativity of the Blessed Virgin Mary has taken an active part in the Archdiocesan pilgrimage to Tarasov Hill in Kaniv, and in May, they take part at the Archdiocesan Pilgrimage to the vacant place of the Kyiv Archeparchy in Vyshhorod.

In September 2017 the parishioners with the Father Myroslav visited ancient Chernihiv.

The Parish of the Nativity of the Blessed Virgin Mary is a member of the Interfaith Council of Churches which operates in Irpin. They take an active part in public, cultural and historical events of the town.

We are sincerely interested in the cooperation of our town Irpin (Ukraine) with the city of Milwaukee (USA), as well as with the parish of the Holy Archangel Michael of the Ukrainian Greek Catholic Church.

Dear friends:

Welcome to Irpin, often described as a land of unique historical and architectural sights with a European perspective. This territory is being cherished by many famous writers, composers, painters and photographers, whose work has captured Irpin over the years and whose descriptions include the words "paradise", "the oasis of inspiration", "the continent of love".

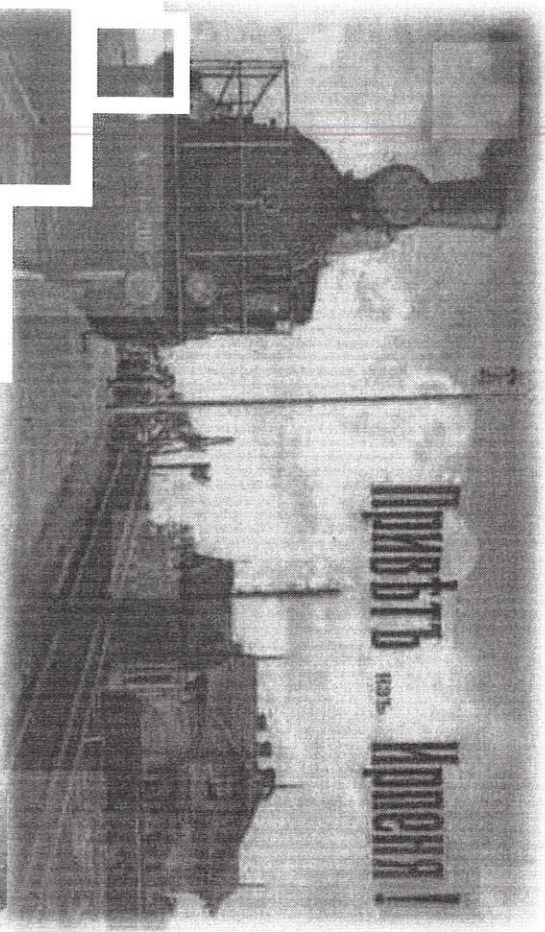

The dynamic development of Irpin occurs through the centuries that has been built over the past 100 years. Today this city is one of the few in Ukraine which despite the economic crisis and socio-political problems in the country is steadily moving forward. The city is renovating parks and gardens, building stadiums and kindergartens, playgrounds and sport complexes, so the modern Irpin is a symbol of hope and vitality.

2015 is a special year in the history of Irpin. The current strategy aim is to become the city of health over the next five years, regional health and safety, energy efficiency, environmental friendliness, business, tourism and recreation. We firmly believe that our commitment to a sustainable future will be able to overcome the negative effects of modern life and inspire future generations to spread good will and positive practices.

I am sure that visitors of Irpin will feel the unique atmosphere of this place generated by the state and active community. I hope it will inspire their personal transformation and awaken the desire to share it with their own cities.

With sincerity,

Історія Приріпіння сягає своїм корінням першої половини минулого тисячоліття. Ці землі в різні часи належали Київській Русі, зодом Золотої Орди, Великому князівству Литовському, Речі Посполитій, Російській імперії.

Історія & Географія

Irpin is a city of regional significance in the Kyiv district, located 15 km northwest of Kyiv. Actually, Irpin is in the center of the region, which includes the urban villages of Vorzel, Gostomel and Kotsyubynske. All settlements share common levels of socio-economic development. The part of the territory has the large tracts of coniferous-deciduous forests and flat terrain. It also has abasin into which three rivers flow: The Irpin, The Buczanka and the Rokach.

The roots of the history of Irpin Region comes from the first half of the last millennium. At various past times this land belonged to Lithuania, The Polish Commonwealth and The Russian Empire.

ІЗПІЛІВЬ - місто здоров'я

1494 роком датується перша згадка про Гостомель. Великий литовський князь Олександр віддав Гостомельський маєток у шляхтича Сенка Богданкевича та віддав його князю Івану Глинському. Пізніше Гостомель належав українському шляхтичу Семену Полозу. У 1614 році польський король Сигізмунд III надав Гостомелю магдебурзьке право.

В історичних джерелах 1506 року вперше згадується село Романівка (нині територія Ірпеня). До середини XVII століття село називалося Романів Міст. Тут архімандрит Києво-Печерського монастиря Никифор Турт поселив селян.

У документах 1651 року згадується село Мостіще (нині входить до складу Гостомеля). Село належало київським монастирям.

У 1868 році в долині між річками Ірпін та Буча польський поміщик Северин Сатоговський збудував цегельний завод, а пізніше – шкряпний завод і водяний млин. Северин Сатоговський почав здавати в оренду земельні ділянки на території нинішнього Ірпеня. У другій половині XIX століття тут виникло поселення чеських і німецьких колоністів під назвою Северинівка. Згодом воно було включене до Ірпеня, як вулиця Северинівська.

Часом заснування самого Ірпеня вважається 1902 рік. Тоді розпочався регулярний рух поїздав новою залізницею Київ-Ковель. Біль запланованого мосту через річку Ірпін було збудовано роз'їзд Ірпін, біля якого і виникло одноименне поселення.

У 1956 році Ірпіню було надано статус міста районного значення у складі Києво-Святошинського району, а у 1962 році – статус міста обласного підпорядкування. До Ірпеня були включені селища міського типу Буча, Ворзель, Гостомель, Коцюбинське. У 2007 році Буча вийшла зі складу Ірпеня, отримавши статус міста обласного значення.

Сьогодні Ірпін, як і вся Україна, переживає процес історичних змін. У державі розпочалася адміністративно-територіальна реформа. За нею – нова сторінка історії Ірпінського краю.

The first mention of Gostomel dates back to 1494. Lithuanian Grand Duke Alexander took the Gostomel estate from its owner, a gentleman named Senko Bogdankevich and gave it to Prince John Gliniski. Later, Gostomel belonged to Ukrainian nobleman Semen Poloz. In 1614, Polish King Sigismund III introduced Magdeburg Law to Gostomel.

The first historical mention of the village of Romanovka (now the territory of Irpin) was in 1506. By the mid-seventeenth century, the village had been called Romanov Bridge. Archimandrite of Kyiv-Pechersk monastery, Nikifor Tur, founded a settlement there.

Another village called Mostiskie sprung up in 1651. This village was the property of Kyiv monks. In 1868 in the valleys between the rivers Irpin and Bucha the construction of a brick plant and a mill for of water and steam mills began. In those times a settlement of Czech and German colonists called Severinivka existed. Later it became a part of Irpin as Severinivska street.

1902 is thought to be the year when Irpin was founded; it happened after the construction of the Kyiv-Kovel railway line. Near the railway bridge over the river there was a crossroad and a settlement named the same.

In 1956 Irpin status changed into a city of rayon subordination, subordinate to Kyiv-Sviatoslav Raion. In 1962, a decree changed Irpin status to a city of oblast subordination, this being subordinate to the oblast authorities rather than to the city administration. The urban villages of Bucha, Vorzel, Gostomel and Kotsyubynske were also a part of Irpin, but in 2007 Bucha separated from them and became an independent subcenter.

Today Irpin like Ukraine is undergoing historical changes. Administrative and territorial reforms have begun which symbolize a new beginning for Irpin.

Природні та рекреаційні ресурси

Ірпінський регіон – унікальний за своєю природою. Більшу частину території займає захищений ліс. Значну його частину складають сосни. Часто зустрічаються осики, берези, дуби, граби, ясени, клени, інші дерева.

Береги річки Ірпінь вкриті заростями очерету, рогози, кущами верби та ожини, у рямкові долині розквітнуть широкі сніжні дуби. На околицях населених пунктів ростуть малина, смілиця, трили, багато лікарських трав. Часто зустрічаються рослини, занесені до «Червоної книги України».

У лісах і луках Приірпіння живе багато різноманітної фауни. Поряд із лосевими подвіргами часто можна побачити білу, жакка, чорногуза, вужа. На ціл території зустрічається чимало рідкісних птахів. Надіялося занесені до «Червоної книги» осойди та канюки. У водних водяться щука, окунь, судак, сом, карась.

Ірпінь включено до переліку курортних населених пунктів. Розташування в лісових масивах приміської зони спонукає до районського переводу спортивно-активного розвитку курортно-рекреаційного господарства. Але з часом кількість курортно-рекреаційних установ дуже скоротилася. Сьогодні в Ірпіні функціонують дві ять установ санаторного лікування, відпочинку та турмаву загальною місткістю 1350 місць.

У 2015 році розроблена нова стратегія розвитку Ірпіння до 2020 року. Вона спрямована на переворотення Ірпіння на місце здоров'я, потужний екологіс. Стратегічний планом передбачається розвиток мережі рекреаційних установ та створення зон короткочасного відпочинку: лісових, лугових і гідрологічних парків.

Nature & Recreation

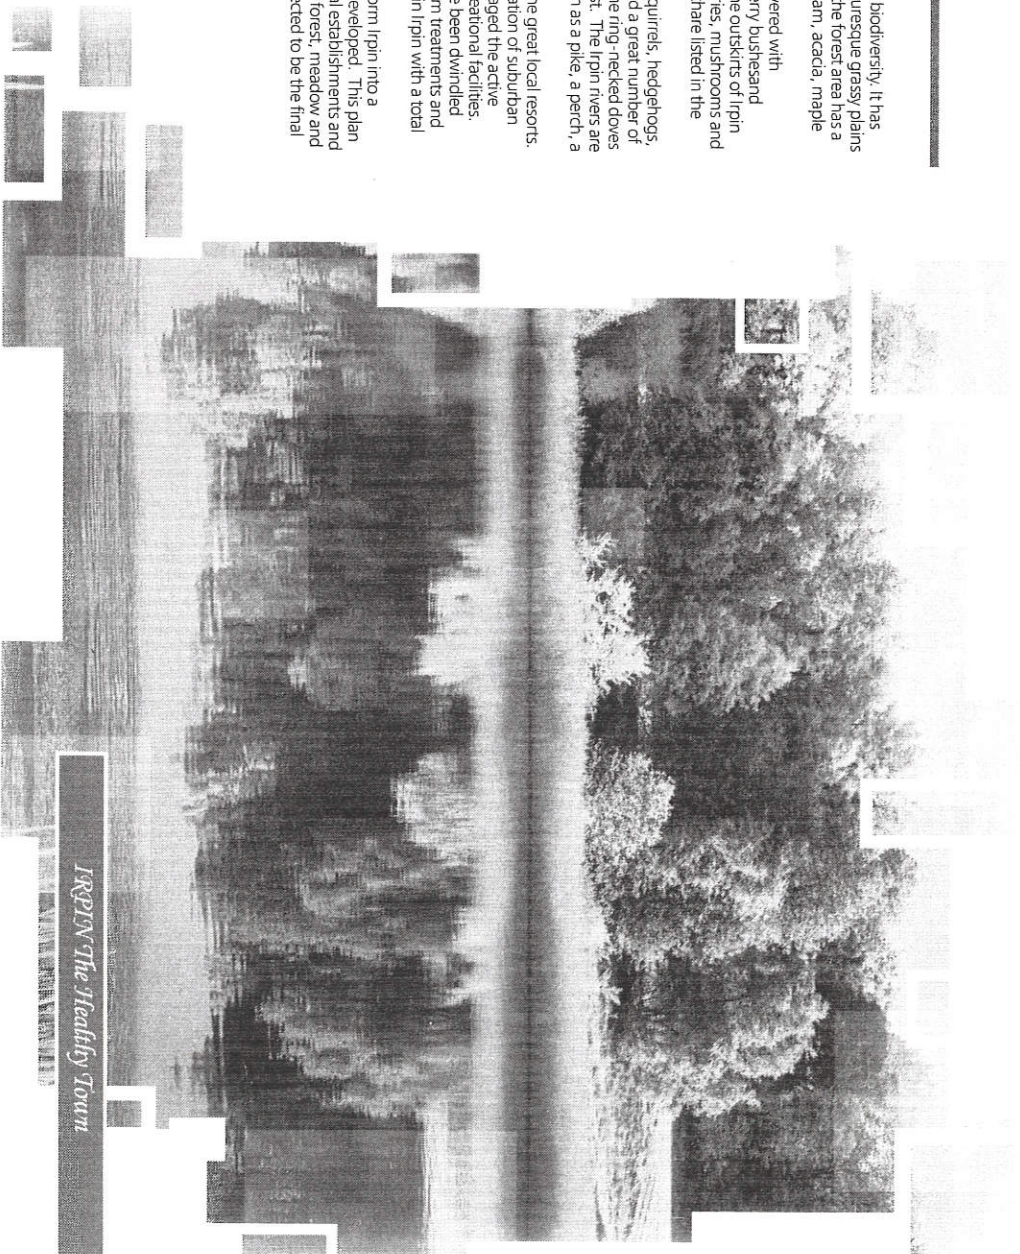

Irpin region is known for its biodiversity. It has both forest and stepe with picturesque grassy plains and mighty oak trees. Most of the forest area has a mixture of aspen, birch, hornbeam, acada, maple and other trees.

The Irpin river banks are covered with reed, cattail, willow and blackberry bushes and wide meadows in the valleys. The outskirts of Irpin are rich in raspberries, strawberries, mushrooms and a variety of herbs, many of which are listed in the «Red Book of Ukraine».

The fauna of Irpin includes squirrels, hedgehogs, foxes, beavers, wolves, stock and a great number of rare birds. Some of them, like the ring-necked doves are in the endangered species list. The Irpin rivers are rich in different kinds of fish such as a pike, a perch, a catfish and a carp.

Irpin is regarded as one of the great local resorts. During the soviet period the location of suburban areas outside the capital encouraged the active development of resorts and recreational facilities. But over time, these resorts have been divided in number. Today nine sanatorium treatments and recreational institutions remain in Irpin with a total capacity of 1350 guests.

In 2015 a strategy to transform Irpin into a healthy powerful ecopolis was developed. This plan calls for a network of recreational establishments and short-time rest zones featuring forests, meadow and hydrological parks. 2020 is expected to be the final term.

Подорож від минулого до сьогодення місцями, де жили видатні поетати минулого століття, супроводжується цікавими легендами Ірпінського краю. Експерсами розповідають:

про створення залізничної станції, з якої розпочалося історія Ірпеня,
де жила і творив український поет і перекладач Максим Рильський,

чому новий с'євер назвали іменем художника Володимир Сидорук,

де прожила останні роки свого життя співачка Оксана Петрусенко,

у якому журналі вперше надрукувалися історичні та літературні твори Ісаака Бабеля.

Де розпочалися романтичні спостереження Бориса Пастернака та Зинаїди Нейгауз,

легенду про камінь-валун, який загубився в Ірпінському лісі,

про ліпінську силу води з освітленою вікнами «Круничка» та вік її сусіда – природного дуба,

де знаходиться будинок, у якому пролилися дитячі роки Миколи Погося.

Що пас вівця Ірпінська Азербайджаном,
про подвиг Володимир Павлика і його якого названо центральний парк Ірпеня,

чому зупинився Кап-вей, навіть не рушивши, і біляго чого це.
