On June 7, 2006 I went to look at the apartments at Juneau Village at 1029 N. Jackson St. I left the apartment complex and was walking on Jackson St. toward Van Buren when I tripped on an uneven sidewalk and fell.

A passerby helped me up and I thought right away my wrist was broken. I sat for a few minutes because it really hurt and I was light headed. I walked a couple of blocks to my car and decided I should drive to an Urgent Care. I went to St. Joseph Outpatient Center on Mayfair Rd in Wauwatosa. I was there for 3 hours they took x-rays and said it was a bad break and I would need to go to Elmbrook Hospital. They wrapped the wrist and put me in a sling and a friend came to drive me to the hospital.

I saw Dr. Bamrah and he told me he would have to operate to put in a pin on Friday June 9, 2006.

I did call the apartment complex Juneau Village Apartments several times and was told somebody would return my calls but never did. Later a lawyer told me that the City of Milwaukee was responsible for the city sidewalks.

I was in extreme pain for 5 weeks and than had to do physical therapy for 4 weeks.

I expect the city to reimburse my insurance company United Health Care and also myself for all my Medical bills. United Health Care has had a glitch in their computer system the last couple of weeks and I am still not sure which bills they have paid

Elmbrook Hospital United Health Care Paid	\$11,142.48
Emergency Physician's Office (Not sure if this is paid)	302.00
Sandra Haun (Hospital) Paid	657.60
St Joseph Medical Center Paid by Sandy	889.25
Dr. Bamrah	2,360.00
Aurora Health Care (PT)	996.50
Insurance has paid \$290.50	

I would like you to reimburse me \$1546.85 of which I paid and \$2000.00 for all the pain I had to endure and my insurance company \$14,800.98.

My insurance company: United health Care
