Subject: Dear Alderman Bauman/Mask Mandate

Dear Sir,

I am a city of Milwaukee resident, though I am not in your district. I live in Bay View.

As you know, our newly elected alderwoman has proposed a mask mandate. EVERYONE I have spoken to (and it's been a lot of people) opposes it, and almost everyone I know also says: what difference will it make if I say something, they won't listen to me anyhow.

Sir, I have always found you to be reasonable and concerned about what people have to say. What does this say about our leaders when most of the people have become despondent believing we live in a dictatorship rather than in a representative government?

I'm enclosing a photo of a conversation I just had (names withheld) to prove my point.

As for the mask mandate- it's unconstitutional, probably illegal (government can't mandate people be forced to buy something), scientifically unproven to do much of anything (except lower oxygen intake and increase risk of respiratory infection due to dirty masks), and makes it tough for the hearing impaired to hear clearly since they can't read lips (I'm in that group).

At a time when violence is up, and people are demanding less money spent on policing, is this really what we want our officers worrying about? Fining a person like me who is walking alone in a park because I don't have an obstruction over my mouth and nose?

As for this list of businesses who are demanding this, how on earth are we to wear a mask in a restaurant and eat and drink without soiling our mask every 30 seconds? I can tell you, sir, despite the fact I'm a resident here, I own a car. And I will take my car and go ANYWHERE else that doesn't impose such an intrusive restriction on me.

Is the city ready to supply a constant daily allotment of disposable masks (6 per 12 hours of wake time) to residents who can't afford them? We can barely meet budget as it is!

So, I hope you will consider all that I have said, and I hope you will take a close look at the moral of the average voter here and the confidence we have in our leaders listening to us.

Thank you for listening.

Subject: Mask mandate

My husband Andre and I vehemently OPPOSE this proposed mask mandate. It is way too far of a government overreach to be telling people what they have to wear, especially something as obtrusive as something that restricts breathing freely. The government can highly recommend it, they can highly suggest it... but in no way shape or form do they have the right to be telling free citizens in good health that they *have* to wear a face covering. My son and husband both suffer from asthma and I struggle to breathe with a mask on as well. We practice excellent hygiene in our family and are all in good health so there is no reason what so ever for any of us to be forced into wearing a mask. It is completely intrusive.

The meeting for this is scheduled at a time where we cannot come, so I have to go on record here in this email and via phone message that we oppose the proposed mask mandate. Shame on you for even thinking you have a right to suggest such a thing. This is not what your aldermanic duties are.

To whom it may concern,

I'm voicing my opinion on the mask update.. I feel we are being stiped of our freedom with this being in place. I for one cannot wear a mask it gives me high anxiety. All the research I have done also claims that masks should only be worn by people who have high health risks.

LET PEOPLE MAKE THEIR OWN CHOICES!

As Gov Evers also stated a mask mandate cannot be enforced because of the Supreme Court ruling. What makes Milwaukee think they can over step the Supreme Court?

I hope you will take my opinion into consideration. I know for one that there are a lot of people that feel the same way as me.

To whom it may concern I'm a citizens of Milwaukee and I am absolutely an outright opposed to a masking mandate! I'm so sick of turning on the TV every day and seeing cities putting on masking mandates months after supposed crisis has started only leading to conflict fighting anger irritation and unrest by the citizens, we do not need this or want this!

If masks were the difference between life and death everybody in Milwaukee would have been dead months ago but we're not we're fine we're healthy we're safe and we're happy and getting ready to enjoy the summer, the state is already ruined our lives as far as entertainment the Summerfest is gone and now you want to add more restrictions this late in the game this is foolish and stupid and anyone who votes for this will lose my boat and I've never really voted in the city council but I will go out of my way to vote this time thank you

Subject: Mask Ordinance

June 30, 2020

Dear Mr. Bauman,

I noted in the news that the alderwoman from Bay View, Marina Dimitrijevic, is proposing an ordinance requiring the wearing of face masks in public places like stores, restaurants, bars, buses, parks and trails. I also noted that the Mayor supports this.

While I agree with requiring the wearing of masks for businesses like stores and for transportation like buses, I do not agree with this for public places like parks, streets, and trails. I fail to see how making joggers, bicyclists and people taking a walk around the neighborhood or in a park without a mask is going to significantly decrease the spread of COVID. Going jogging or biking is one of the few pleasures that we are still enjoying, especially since the weather is getting hotter.

From a practical point of view I can see how businesses and buses could use an ordinance to enforce wearing of masks. However, who is going to enforce the wearing of masks in parks and on the streets. Recent demonstrations in the city have shown that there was no enforcing of the Governors orders on large gatherings by the police. Are the police going to enforce a mask ordinance throughout the city under the present circumstances?

Please be practical. Come up with an ordinance that works for businesses and transportation. My own experience with this at places like Menards, my doctor's office and buses shows that this can work. Leave public spaces alone. You will have trouble enforcing it. The last thing we need is more confrontations between the public and the police.

Yours,

Raymond A. Fournelle

Masks Don't Work: A Review of Science Relevant to COVID-19 Social Policy | River Cities' Reader

The present paper about masks illustrates the degree to which governments, the mainstream media, and institutional propagandists can decide to operate in a science vacuum, or select only incomplete science that serve their interests. Such recklessness is also certainly the case with the current global lockdown of over 1 billion people an unprecedented experiment in medical and political history.

Hello,

As I previously mentioned I would like the opportunity to have a conversation with you over the phone. However, I will put some of my thoughts in this email as well. I would like to start out by saying that I am pro mask. I believe it is an important way to prevent the spread of covid19 and should be worn in most indoor public places.

That being said, the notion of wearing a mask while exercising is ludicrous at best, dangerous at worst. It's simply unnecessary. First of all, outdoor transmission is rare and not caused by a brief passing or encounter. Second, you simply cannot run or exercise with a mask on. It would restrict breathing in such a way that would make it unbearable and possibly dangerous. Even children outside playing. Will they have to wear a mask? This is nonsense and not realistic.

As for indoor spaces, most gyms have social distancing in place. It seems excessive to mandate masks AND social distancing while working out. If I'm 6-12 feet away from the nearest person, why do I need the mask? It's not safe for me to do so.

Gyms and exercise need to be treated differently in regards to mask wearing, as does being outdoors. Kids should not be forced to wear masks while playing. I WILL NOT wear a mask while running. If it is mandatory in a gym, I will have to quit my gym. I would implore you to reach out to some small business owners in your neighborhood who run gyms, yoga studios, ect. Ask them how that would impact their business. I assure you, they will suffer.

Please don't take a good idea, such as wearing masks when appropriate and sensible and create unnecessary burdens and harm to other businesses. Restaurants and Bars, stores, etc. All perfectly reasonable places to wear a mask. But not outdoors and not while working out. That is unfair, unsafe, and doesn't make sense.

I have a few friends who own yoga studios and gyms in your district and I'll be giving them this information as well. I'll give you their names tomorrow.

Please let me know when you can chat tomorrow. Thank you!

Lenore

Subject: Mask Mandate

Can someone on the committee have a bit of sense and at least check this out?

The MASK debate is no longer a debate. OSHA explains with science. WHY OSHA hasn't come forward and stopped the nonsense and to cover 3 things:

- N95 masks and masks with exhale ports
- surgical masks
- filter or cloth masks

OSHA says some masks are okay and not okay in certain situations.

If you're working with fumes and aerosol chemicals and you give your employees the wrong masks and they get sick, you can be sued.

- N95 masks: are designed for CONTAMINATED environments. That means when you exhale through N95 the design is that you are exhaling into contamination. The exhale from N95 masks are vented to breath straight out without filtration. They don't filter the air on the way out. They don't need to.

Conclusion: if you're in Target and the guy with Covid has a N95 mask, his covid breath is unfiltered being exhaled into Target (because it was designed for already contaminated environments, it's not filtering your air on the way out).

- Surgical Mask: these masks were designed and approved for STERILE environments. The amount of particles and contaminants in the outside and indoor environments where people are CLOGGING these masks very, VERY quickly. The moisture from your breath combined with the clogged mask will render it "useless" IF you come in contact with Covid and your mask traps it, YOU become a walking virus dispenser. Everytime you put your mask on you are breathing the germs from EVERYWHERE you went. They should be changed or thrown out every "20-30 minutes in a non sterile environment."

- Cloth masks: I can't even believe I'm having to explain this, but here it goes. Today, three people pointed to their masks as they walked by me entering Lowe's. They said "ya gotta wear your mask BRO" I said very clearly "those masks don't work bro, in fact they MAKE you sicker" they "pshh'd" me. By now hopefully you all know CLOTH masks do not filter anything. You mean the American flag one my aunt made? Yes. The one with sunflowers that looks so cute? Yes. The bandanna, the cut up t-shirt, the scarf ALL of them offer NO FILTERING whatsoever. As you exhale, you are ridding your lungs of contaminants and carbon dioxide. Cloth masks trap this carbon dioxide the best. It actually risks your health, rather than protect it. The moisture caught in these masks can become mildew ridden over night. Dry coughing, enhanced allergies, sore throat are all symptoms of a micro-mold in your mask.

-Ultimate Answer:

*N95 blows the virus into the air from a contaminated person.

*The surgical mask is not designed for the outside world and will not filter the virus upon inhaling through it. It's filtration works on the exhale, (Like a vacuum bag, it only works one way) but likely stops after 20 minutes, rendering it useless outside of a STERILE ENVIRONMENT (correct Becky, they don't work in a bar, not even a little bit).

*Cloth masks are WORSE than none. It's equivalent to using a chain link fence to stop mosquitos.

The CDC wants us to keep wearing masks. The masks don't work. They're being used to provide false comfort and push forward a specific agenda. For the love of God, research each mask's designed use and purpose, I bet you will find NONE are used in the way of "viral defense."

Just like EVERY Flu season kids, wash your hands. Sanitize your hands. Don't touch stuff. Sanitize your phone. Don't touch people. And keep your distance. Why? Because your breath stinks, your deodorant is failing, your shoes are old and stink, that shirts not clean, & I like my space. Trust me I can hear you from here. Lots of reasons to keep your distance and work on body hygiene. But trust me, the masks do not work.

*Occupational Safety & Hazard Association sited.

The top American organization for safety.

They regulate and educate asbestos workers, surgical rooms, you name it.

I know, facts suck. They throw a wrench into the perfectly (seeming) packaged pill you are willingly swallowing. Facts make you have to form your OWN OPINION, instead of regurgitating someone else's, and I know how uncomfortable that makes a lot of you. If your mask gives you security, by all means wear it. Just know it is a false sense of security and you shouldn't shame anyone into partaking in such "conspiracies."

If select politicians stopped enforcing it, no one would ~~continue this nonsense~~.

(Take what you want from this...a believer or nonbeliever...but Do Not force others into your world)

Subject: Mask mandate

Hi

I am writing you to say I am totally against the mask mandate. I would like you not to vote for it. I do not believe masks do anything to prevent the virus. I wore masks while working in research for 12 years and know quite a bit about the different masks do and uses for them and know that the cloth and paper masks do absolutely nothing to protect a person and if anything will make you get sick because they get damp and breed germs.

Thanks
Maria

Subject: Mandatory mask in public

Dear Anti Constitutional over reaching local tyrants,

No to mandatory face covering in public spaces. Every one has the anti bodies because it has been floating in the air for many months, and living on hard surfaces for hours right? CDC retracted the two weeks of no symptoms yet transmitted. Co2 levels rise and oxygen levels fall the second a mask goes on. and people get woozy from lack of oxygen, perhaps permanent brain damage. I know every one I talk to gets light headed.

Appreciate it if you would open small claims court. You have the technology.

Subject: Mask mandate

This email is in regards to the mask mandate being considered in the City of Milwaukee. Regardless of how I personally feel about wearing a mask while out in public, this is about business owners (which I am not) and their RIGHTS to make their own rules in their businesses. It's time the government STOPPED infringing on their rights. I understand there are business owners behind this mandate and it is their RIGHT to make that rule in their own business but not to push it on others. Unless the City wants to suspend collecting money for licenses and taxes and what-not that businesses have to pay, they need to let business owners make their own decisions about what takes place inside of THEIR business. We are not California - we are Milwaukee, WI. Stop treating your citizens like kindergarten children and let people make their OWN choices. There is enough going on in this City (much of it not good). Start focusing on our crime and infrastructure and let people make their own personal choices!

Subject: Face Mask Legislation

Good Afternoon,

Please note that Legistar currently does not have this meeting available for public comment.

Thus, I am leaving my comment with this contact and Ald. Borkowski's Office.

I would like to voice my strong opposition to requiring all citizens to wear a face mask while in public spaces.

In addition to the viewpoint that this ordinance infringes upon individual rights; it is also essential to note that this mandate makes those who have a mental health diagnosis, such as PTSD and Claustrophobia susceptible to panic attacks and limits the places they can travel to exercise or do business.

Moreover, while it should be the right of each business to determine if they want their customers to wear face masks while visiting their establishment, it should also be each citizen's right on what business to patronize.

When you have a moment, please advise that this email has been received and recorded pertaining to this upcoming meeting.

Regards,
