CONFLEX SHERLASTIC ELASTOMERIC COATING

OVERALL RATING

ConFlex™ SherLastic® Elastomeric Coating is an economical choice for excellent protection from harsh weather conditions. Designed to be used on a variety of vertical concrete surfaces. Reduces water damage on interior surfaces by protecting exterior concrete and masonry surfaces against wind-driven rain. Has a smooth application that allows for a uniform finish and provides a freshly coated appearance.

Container Size: **1 Gallon**

Sheen: **Flat**

Base: **Extra White**
