In 2000 my partner and I moved to Brewers Hill. We bought a house in need of a tremendous amount of work. We basically started over on the inside tearing out walls, plumbing and electrical and converted a duplex into a large single family home. We also spent much time and money restoring the outside to it's original form. Discovering that I could not manage a job and rehab work I quit my job and went into rehab full time.

Currently I am self-employed as Owner/Manager of L C Management. I own rental properties in the Brewers Hill Neighborhood as well as a 3 family unit in the Historic Concordia Neighborhood. My objective is to buy properties that need work and turn them into respectable members of the neighborhood. One of these properties is the building at 1951 N MLK. This property was boarded up in the early 1970's. It now houses Patton Flower Shop and Restored Hair Salon as well as three residential units on the second floor. I have been in the property management business since 2002.

From 1993 to 1999, I was the Distribution Manager for Dean Foods in Green Bay. There I was responsible for the daily shipments of product out of the Green Bay facility as well as raw materials in. I was also responsible for importing Olives from Spain to our various facilities throughout the US.

When I came to Milwaukee in 1999 I worked for the Brass Light Gallery as the Logistics Coordinator. I was in charge of all of the activities of the warehouse, including shipping and receiving and inventory management.

I was chosen by the Historic Brewers Hill Neighborhood Association to bring our vision of what we would like to see happen to the King Drive area. I believe I represent a good balance of preservation and progress that would be useful in helping move the area in the right direction. I also believe that input from the neighborhood is vital to creating a place that is sustainable.
