DARICE BEALIN –

BUSINESS AUTOBIOGRAPHY – AUGUST 01, 2020

#### A. OWNER'S BACKGROUND

As a young child, I attended Milwaukee Public schools and graduated from Washington High School. Several years later, I had married my High School sweetheart, and from this Marriage, we had two Daughters: One who currently lives in Atlanta, GA and the other lives here in Milwaukee.

For 30 years, I was employed at Briggs and Stratton Corporation. I had held various jobs within the factory, ranging from doing piece work to becoming a Quality Control Inspector. I knew there was a void in my life because there wasn't a challenge given to me by working there. The income that I received there was very good, but something was missing; I knew I was called to do something far greater than working in a factory. I had always wanted to operate my own Business and felt that the Child Care field was my true calling.

I come from a large middle-class family with 2 Brothers and 4 Sisters. My parents were both employed full time so, childcare was automatic in the family settings with either a relative (Aunt or Grandmother) caring for us until we became teens and at that point, we cared for each other and ourselves.

My Parents had migrated from Mississippi, looking for better opportunities up north and ended up making Milwaukee their home. From both of my Parents' side of the family, hard work was the norm. We come from a rich history of hard workers individuals, that most who have operated their own businesses to provide for their families and offered quality service to their Community while running their business.

Previously to opening my Child Care Center, I worked in my Daughter's center for one year. The experience that I had received from working there was very educational; By obtaining the necessary skills, this has allowed me to incorporate those skills in learning how to run a successful Child Care Business.

After retiring from Briggs, I am a Business owner on a Property located on 45<sup>th</sup> and Burleigh, that my Sister and I purchased 30 years ago. It is a 4-unit Commercial Building that I lease to various Business owners ranging from Barber and Beauty salons to other types of retail establishments.
