RE: Recommendation for renewal, Milwaukee Academy of Science

At its April 3 meeting, the Charter School Review Committee passed the following motion unanimously:

The CSRC recommends that MAS be renewed for a five-year term from 2013-2018. This recommendation recognizes the Committee's annual review and approval process of the school's academic performance as set forth in its Programmatic Profile and Education Performance report, as well as the school's financial and operational performance as set forth in its Management Oversight Report.

I look forward to presenting this recommendation with our academic monitors to the Steering and Rules Committee on behalf of the CSRC.
