ADDITIONAL COMMENTS/RECOMMENDATIONS:

- It was recommended that the owner install windows to allow employees to see outside. This would improve natural lighting and situational awareness, contributing to a better work environment.
- A physical barrier or separation should be installed between the food preparation area and the customer area. Currently, customers have direct access to areas with heavy machinery, which poses a significant safety risk.
- Installation of a security camera in the rear of the business was advised. This area currently has a blind spot, which could lead to safety or security concerns if not properly monitored.
