Tim,

Fire at 1817 W Lincoln Ave this morning. This is an MPS school built in 1917.  
Roof and floor collapse.

We will need to start an emergency raze on the building. It is still an active scene, so not much more information than that.

I have not heard anything from MPS regarding their plans, but it was a five alarm fire and they are still trying to knock down several fires in different areas of the building.

Michael
