Milwaukee, WI 53202-3567

Claim for Property Damage

On May 27, 2025, I was driving my 2007 GMC Sierra near the intersection of E. Pleasant Street and N. Kewaunee Street in Milwaukee when my vehicle ran over a construction covering placed over a roadway excavation. The board appeared intact and stable from the surface, but it collapsed under the weight of the vehicle, revealing that it was structurally unsound and inadequately supported.

There were no visible signs of surface damage, and while there was a construction barricade, it was not positioned to provide any warning—it was laying flat on the ground off to the side of the hazard.

As a result of this concealed danger, my truck sustained significant damage to the bed, rear bumper, tail light assembly, and related components.

I have attached a professional repair estimate totaling \$6,477.89 from RW Automotive and Performance, along with photographs of the location and site conditions at the time of the incident.

Relief Sought:

I respectfully request reimbursement in the amount of \$6,477.89 to cover the cost of repairs resulting from the unsafe and unmarked condition of the street.

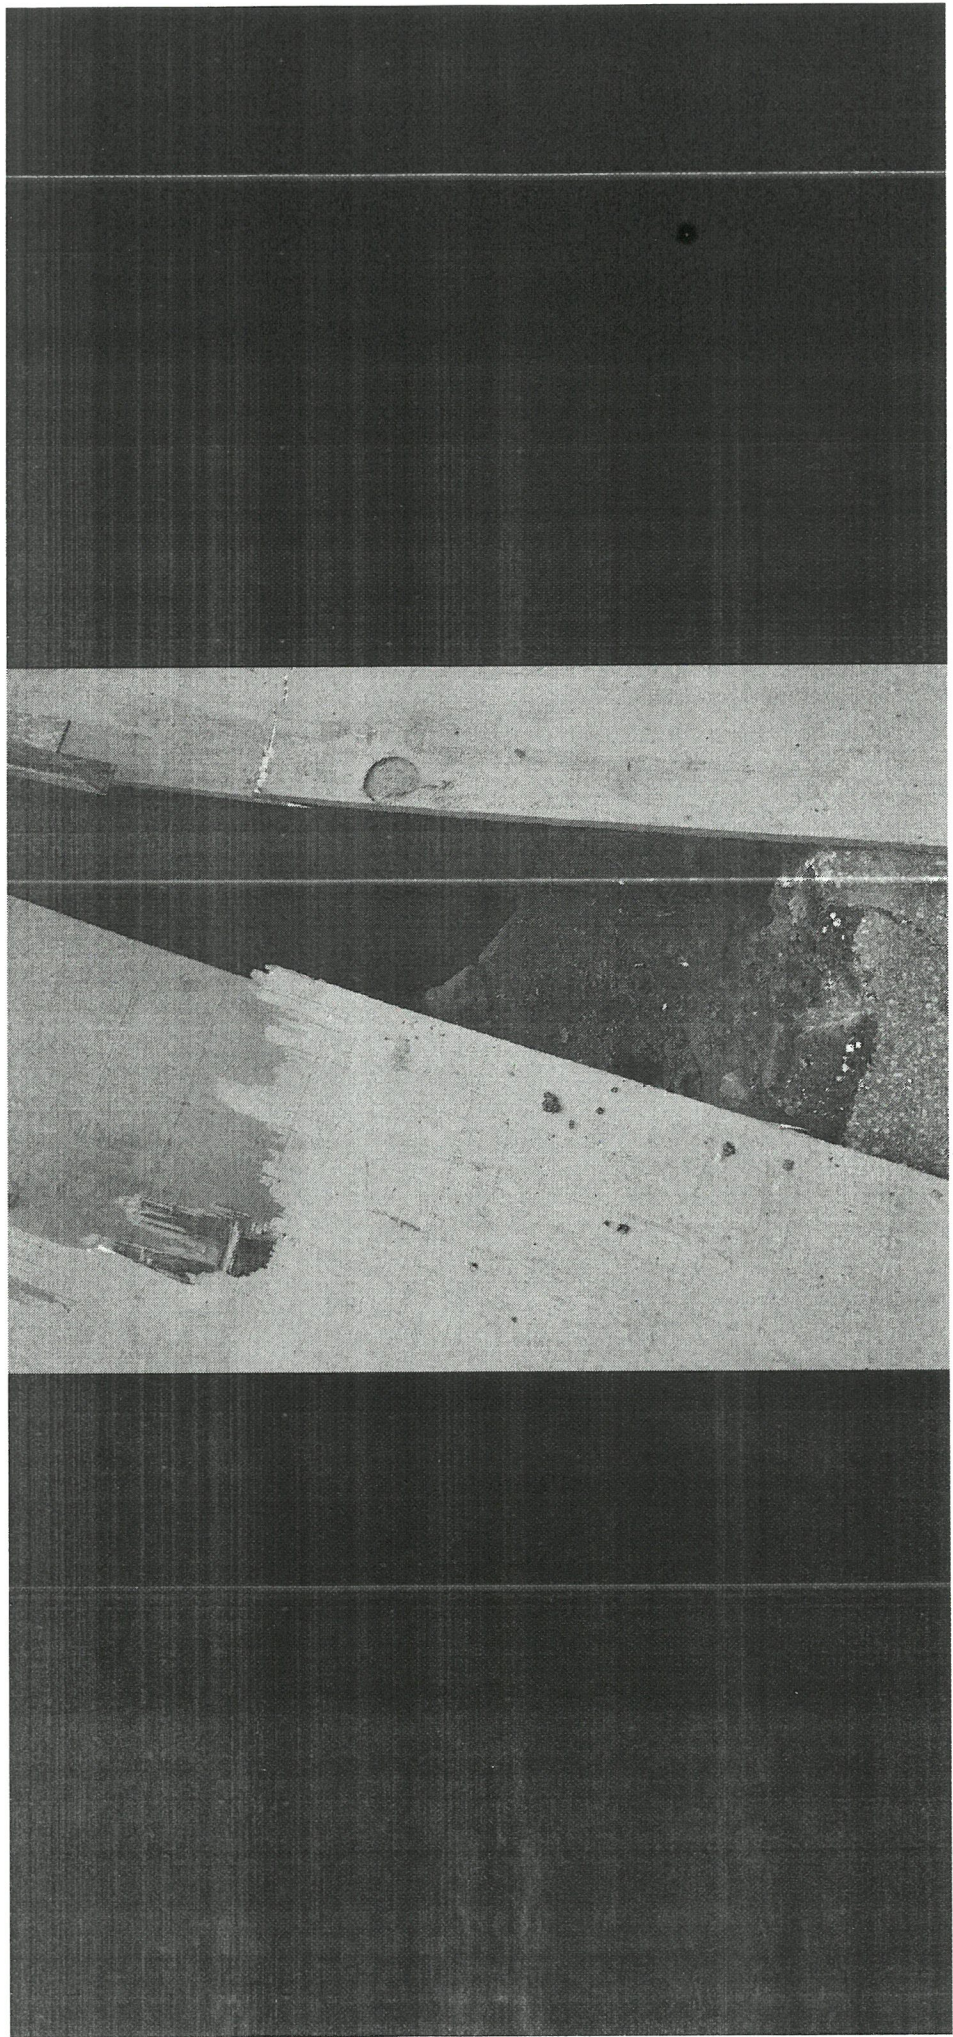

Attachments:

1. Repair estimate from RW Automotive and Performance (dated 06/03/2025)
2. Photographs of the scene and structural failure
3. This signed statement with claimant contact information
