Dear Mr. Carini

I am writing to appeals the decision you made concerning my claim. I really don't understand what you are talking about when you are referring to the Tow Lot Intake Video. If there was a radio in my car when I picked it up why would they even give the PT-27 to fill out, the guy who brought me my car seen there was no radio when he gave it to me. When I asked where was the radio he looked on the form from the police officer and he listed there was a radio, so he told me to fill out the form and they took pictures before I left the Tow Lot. If you have any question please give me a call (414) 219-6905

To Whom It May Concern: My name is Terri Webb and my vehicle was towed on the morning of 2/20/03 and when I went to retrieve my car the radio was not in the car and some of the CD was also missing the mounting frame was also taken. I think someone should replace my things that were missing from my car. The radio was meant for another car but put in that one instead. The radio played tapes; CD's and I had a monitor that I could hook-up a DVD player to.
