Re:C.F. File No.12-S-217

Appeal.

Dear sir: Thank you very much for respondin to my claim. Unfortunately the field investigators gave you wrong information when they dug the street it was not 6 inch they dugup the street it was almost 6 to 10 ft. and they did not filled the place in same day the crew were working 5 to 7 days you can come and see the site still there is sign so that you see how big the place is. The dug almost half of the street. I want ask you to come I will show you that they gave wrong information they just want to cover themselves and denying their negligents.They dug the street with a big machine the crew were 4 to 6 men and they did not cover the place in same day it took a few days. There are 15 to 20 home in my street and every one have tree in front of their homes non of them have problem iam the only one who have problem, because the crew came and repaired their job and broken my sewer line and left. I have problem ever since. I have to have some one the come and open my sewer line each time cost me 160 to 200 dollars almost two times a year.they broken the sewer line and caused the rood growth into the sewer line to get water. you are goverment you should help the citizen. would you please do not denying their negligent.Everybody make a mistake for you to have them to fix their wormg handling and damage my sewer line do not cost too much. would you please have them to come and fix their damages.

very truly yours

Milwaukee, Wi 53202

Before 2004 City of Milwaukee has problem with sewer or water lines in front of my home. They came and dug out the street in front of my home. They worked 10 to 15 days and finally they solve their problem and left.

By doing that they broke my sewer line, ever since my sewer line clogs every 5 to 6 months. To have sewer line open and clean it cost me almost 200 dollars each time. I call city of Milwaukee and informed them the problem, they sent specialist and ran TV inside the sewer line and find out that the sewer line was broken by hem and tree root goes inside the sewer line and cause the blockage of the sewer line.

I want ask you would you please have city of Milwaukee to come and replace the one they broken. I am in very low income and I can not do it anymore. Thank you very much and remain.

Very truly yours
