Hello,

I have been a resident of Milwaukee for about 6 years now. One of the reasons I love Milwaukee is the beautiful lake and abundant nature, especially in the city.

I am emailing to firmly oppose the proposed data center in Midtown Center. Milwaukee does not need a data center, and the residents are firmly against it. A data center will take natural resources, jobs, and property, not to mention increase taxes for residents. The citizens should be the ones calling the shots on the city! Please consider the wellbeing of current residents over the profits of out-of-state tech companies.

Thank you,

Avery Aurand
