OFFICE OF
CITY ATTORNEY

Dear Mr. Langley,

I am sending this communication to notify you that I wish to appeal your decision to deny my claim of damage done to my auto tire. I spoke with Mr. Robert Overholt and indicated that although the letter was dated Sept 19, 2005 the post mark on the letter was dated Sept 30, 2005. He indicated there was a snafu at city hall and the letter was returned. He also indicated the 21 day response date would be pushed out to accommodate that error. He kept the original envelope in the file and it is available if there are any questions. I am looking forward to presenting my information at the hearing.

Sincerely,
James J. Gradel

To: WHOM IT MAY CONCERN,

- 3) On Wednesday April 27th approximately 3:30 pm after work, I was headed home when my tire hit a protruding section of concrete in the traveled roadway. At the time of impact there was a loud bang noise so I pulled over to inspect the tire. The right front tire had a protruding bulge on the tire. By the time I got home the bulge had gotten larger. The following Saturday I took the car to my local Goodyear tire center to get a professional evaluation of the damage to the tire. They took the tire off the rim to do a proper evaluation. After the evaluation was complete they said the tire was dangerous to drive on and the damage was caused by some sort of impact. I explained what had happened a few days previous they said it was "most definitely" caused by that type of impact. I was also told the rip would continue to get larger if I continue to drive on it, and it would eventually fail possibly causing a dangerous situation. I had the treadwear measured and I purchased a new tire. I kept the tire until this issue is resolved and so anyone can inspect the tire.

I hope you will consider my request and I will be happy to answer any questions you may have.

Thank you in advance,

James J. Gradel
