I would like to register via email that I do not support the data center proposed to be built at Midtown Center. I do not believe this will benefit that neighborhood specifically, or the city at large, and would in fact rather be a negative impact to any desirability of living near Midtown Center.

I am indifferent to the indoor self storage part of the proposal. I don't think it will add any great value to the neighborhood, but would fit better with the existing use of the other commercial buildings in the area.

I would highly support any proposal for controlled environment agriculture to be located at Midtown Center, should there ever be an opportunity to pursue that type of venture to locate in Milwaukee.

Thank you,
Jessica Turnbull
