## **Act 16 triggers changes to city licensing process**

On May 1, 2015, Governor Walker signed into law **Wisconsin Act 16** which, among other provisions, prohibits local units of government from regulating transit network companies, vehicles, and drivers.

**Therefore, effective May 3, 2015, the City of Milwaukee will no longer accept, process, or issue licenses for the operation of network vehicles or drivers.**

All regulations pertaining to metered fare taxicab and other public passenger vehicles and their drivers remain unchanged.
