To whom it may concern,

I'm honored to be able to express myself on how I feel on behalf of Central City Cyberschool when it comes to my children education, safety, counseling, mentorship. I've been a C3 mom now for 9 years, I'm a single mom of five and now as of this school year all five of my children attend Central City Cybeschool. I have a few nieces and a nephew who also attend Cyberschool. I'm in great belief that Cyber school is a great home for my children and I know I can speak for other parents as well. Just a few things that I like about Cyber, their after school program CLC, it works for me for many years with helping the students with homework, tutoring when needed, and it also helps me when you work second shift at a job. I like the fact that the educators are hands on with our children from again counseling, with mental and emotional help. I also like their academic curriculum some of my children are above level and it shows from the help of the staff members at Cyber. If I had a choice to recommend a school if for sure would be Central City Cyberschool.
