Kenneth Charles Brown
9300 W, Auer Ave.
Milwaukee, Wi. 53222

I am a Licensed Psychiatric Nurse Practitioner, and I have been treating Mr. Kenneth Brown since August 29, 2024. Mr. Brown has been diagnosed with the following mental health conditions:

- Adjustment Disorder with Mixed Anxiety and Depressed Mood
- Obsessive-Compulsive Disorder (OCD) with Obsessional Thoughts and Rituals
- Hoarding Disorder with Excessive Acquisition
- Insomnia

Mr. Brown is actively engaged in his treatment plan. I am currently managing and adjusting his medication regimen as needed, with the objective of achieving symptom remission. He is seen for medication management appointments approximately every three months.

This report is provided for the purpose of documenting Mr. Brown's ongoing treatment and current clinical status.

Respectfully submitted,

Janet M. Burns, APNP
Psychiatric Nurse Practitioner

To whom it may concern,

Ken is my patient and suffers with Raynaud's syndrome . This causes spasms in small blood vessels in his fingers and toes , which limits blood flow .As a result, he experiences symptoms of decreased sensation,numbness , throbbing and ulcers. Common triggers of Raynaud's attacks include cold weather and stress.

If you have any questions or concerns, please don't hesitate to call.

Sincerely,

Angela Michor, APNP
